THINK SECOND CANTON MAN MURDERED

MORE CONTROL
BY PRESIDENT
WILL BE ASKEDRepublican Leader Hopes to
Add Power to Chief
ExecutiveEFFORTS SEEM FUTILE
Congress Will Not Yield Its
Authority Over Federal
Commissions

BY DAVID LAWRENCE

Copyright 1926, by Post Pub. Co.
Washington — Announcement by Representative Will R. Wood of Indiana, chairman of the Republican congressional campaign committee, of his intention to lead a movement for the abolishment of independent commissions and establishments so that they would be entirely under the control of the chief executive, is in line with previous efforts to get rid of the federal trade commission and similar institutions that have been bi-partisan efforts that have not had the slightest chance of success.

There are several things on which congress has tenaciously insisted—the disposal of public property such as the government fleet, the control of tariff rates and inquiries, and the right to inquire into corporate management through an agency which is thoroughly independent of the department of justice.

Theoretically there is no reason why the federal trade commission should not be a bureau under the direct control of the attorney general as, in effect, proposed by Representative Wood.

COMMISSION AS REMEDY
But the federal trade commission was created because of the very condition which it is Mr. Wood's intention to cure, namely, the political influence. In practically every administration, Democratic as well as Republican, the president has exercised such a control over his attorney general as to make it possible to press some suits and abandon others. Opinions on ambiguous questions have usually been rendered in the direction desired by the chief executive.

Congress has not felt that it could rely on the inquiries conducted by the department of justice because if a Republican administration were in power, Republican politics would influence an aggressive or indifferent inquiry as the case might be. Similarly when the Democrats have had control of the department of justice, a Republican congress has not felt that extensive inquiries would be made on subjects in which it was interested.

The result of this situation has been the creation of bi-partisan commissions directly responsible to congress. While it is true that the chief executive by use of the power of appointment can control the various independent commissions, it is also true that congress may refuse to confirm individuals who have entered into any understanding with the chief executive relative to any policy to be pursued.

DELAYS DUE TO DISSENSION
Although there have been frequent delays due to dissension of members of the commissions, this is a comparatively recent occurrence and was not characteristic of the operations of the boards and commissions when they were first created.

It is that the positions do not pay big enough salaries to attract men of capacity and judgment and that the personnel has been largely given over to office seeking politicians.

Practically every president has had difficulty getting able men who have distinguished themselves in business or the professions to come to Washington to fill the various commissions and boards.

FAVORS INDIVIDUAL CONTROL
Mr. Wood's plans are based upon a belief that as between the present situation in the various commissions and the control by a single cabinet officer of the work being done by the independent commission, there would be a vast improvement in the latter method.

Dirigible Stays On Earth
After Accident To Engine

Lake Hurst, N. J.—(AP)—A break in the water cooling system of one of the engines of the navy dirigible Los Angeles occurred this morning after the giant airship had returned to her hangar from a trip southward for compass calibration tests.

The trouble was said to be not serious, but the engine will be removed for repairs. The dirigible will resume her tests Wednesday. The break was in engine No. 3, one of the five with which the dirigible is equipped. The accident would not have affected the Los Angeles had she been in flight at the time, it was said, for she can navigate safely on three engines.

The Los Angeles had intended to remain in the air for further tests to day off the Virginia capes, but Commander C. E. Rosendahl decided to

return here after a local electric storm had arisen off Norfolk, Va., Monday night. The move was taken as an extra precaution.

The Los Angeles left the air station Monday morning and successfully calibrated two shore stations, Bethany beach, the last of the Delaware cape stations, and the station at Virginia beach.

The storm, localized off Norfolk, gave indications of continuing for four or five hours at 9:30 Monday night, so the commander, deciding to take no chances, pointed his craft homeward, the trip being without incident.

The dirigible arrived shortly after 3 o'clock in the morning and the engine trouble developed after she had been safely secured.

MELLON VISIT
REVIVES HOPE
AMONG FRENCH

Look for Removal of Misunderstanding in Unofficial Discussions

Paris—(AP)—The arrival here of Andrew W. Mellon, secretary of the United States treasury has revived interest in the inter-allied debt question. Certain importance it attached to talks Mr. Mellon will have with M. F. J. de la Motte, minister of finance, and M. Briand, minister of foreign affairs.

While responsible observers do not imagine these talks will modify the situation, they nevertheless express the belief that they will render genuine service to both sides by removing misunderstandings, clearing up obscure points and paving the way for further discussion of France's debt to the United States.

The newspapers Tuesday print lengthy extracts from the article of Newton D. Baker, secretary of war in President Wilson's administration, proposing an international conference with American participation, to reconsider all inter-allied debt questions in order to keep markets open. They also print Washington's reaction to Mr. Baker's article and other matter bearing on different aspects of the debt problem.

U. S. CRUISER ARRIVES
AT NICARAGUA REVOLT

Washington, D. C.—(AP)—The cruiser Rochester under command of Rear Admiral Latimer arrived Tuesday at Bragmans Bluff, Nicaragua, where it was sent to protect foreign interests as a result of the revolutionary outbreak in Nicaragua.

WILLS MANAGER SEEKS
TO STOP DEMPSEY TILT

New York—(AP)—Faddy Mullins, manager of Harry Wills, negro heavyweight challenger, said Tuesday he would seek an interview with Governor Pinchot of Pennsylvania, in an attempt to block the Dempsey-Turner championship fight at Philadelphia, Sept. 23.

BELIEVE MANIAC
BADGER CONVICT

Identify Picture of Ex-Waupun Inmate as That of Pennsylvania Bomber

Pittsburgh, Pa.—(AP)—Identification of a photograph of Mike Chowick, former Waupun penitentiary inmate, as the bomber who blew up the Farmers' Deposit Savings bank here last Tuesday, killing himself and a policeman will not be accepted as establishing the identity officially, John Black, morgue superintendent said Tuesday.

The photograph was identified by bank officials to whom the bomber presented a demand for \$2,000 before he set off his infernal machine. Black said it would be necessary for someone to come forward and make affidavit that the decapitated body in the morgue was that of Chowick.

Ellwood city police, who identified the body as that of James Robick, a "queer" resident of that town, said the photograph was not that of Robick. At first it was believed Chowick had assumed the name of Robick when he was released from the Wisconsin prison.

REPORT QUAKE
HITS AZORES;
MUCH DAMAGE

Extent Is Unknown; Some Deaths and Many Injuries, Dispatch Says

London—(AP)—Private advices from the Azores report that the town of Fayal is in ruins in consequence of heavy earthquake. A cable operator in the Fayal relay office notified the company's headquarters that his battery room was destroyed and expressed the opinion that if there was another shock, the whole building would collapse.

Fayal is the westernmost island of the central group of the Azores. It is of volcanic origin, and like the other members of the group, has been visited by quakes from time to time. The population of the island is about 25,000 mostly of Portuguese blood.

REPORT SERIOUS DAMAGE

New York—(AP)—Operators of the French telegraph cable company, making an early morning test of their trans-Atlantic cable that runs from this city to Brest, France, through an automatic relay on the island of Fayal found that there was no response to the Fayal relay. They were notified from the Brest office that there had been an earthquake at Fayal and the town "presumably Horta" was seriously damaged. Later the automatic relay began operating again, indicating the danger was past.

Cable operators invariably refer to their station as Fayal though the town is known as Horta.

AWARD CONTRACT
TO IMPROVE PARK

Chicago Company Starts Work at Once After Bid Is Accepted

Improvement of Pierce park, financed by a \$50,000 bond issue authorized by the common council and approved at a special election, is to be started almost immediately, it was announced Tuesday morning by the park board after it had awarded the contract for beautifying the park to the Chicago Landscape Co. on its bid of \$538,646.48.

This figure does not include construction of a dance pavilion and band stand, it was said. These structures will not be built this year.

The landscape company will be ready to start work within a week or ten days and expects to have the park practically completed this fall so the park will be ready for use next spring.

Nine companies submitted bids. The largest single item in the contract is the construction of roads and drives, amounting to \$16,178.25. Several miles of roads will be built in the park. Entrance will be through a gate at S. Pierce-ave. The plans provide for lagoons that will cost \$1,591, planting of shrubs at a cost of \$5,558.10, construction of sidewalks, two comfort stations, two tennis courts, baseball diamond, adequate parking space for cars, fire, water supply, seeding and leveling.

Inasmuch as \$50,000 has been made available for improvement of the park, the commission will have almost \$11,500 left after the present contract is completed.

HOLD FIVE FOR
DEATH OF GIRL

Young Men Are Refused Bail in Mysterious Murder at Diagonal, Iowa

Bedford, Ia.—(AP)—A special grand jury Tuesday began an investigation of the death of Pansy Turnbull, 17, of Diagonal, Iowa, a mystery which officers of three counties have attempted to solve.

Preliminary hearing for five young men held on charges of murder in connection with the girl's death was Thursday night in a dead-end condition at Clearfield, Ia., and her death a few hours later at her home has been obtained, officers said but whether it would be disclosed at the preliminary hearing was not known early Tuesday.

RADIOGRAM STATES
EXPLORER PLANS TO
RETURN IN 10 DAYS

Portland, Maine—(AP)—Commander Donald B. MacMillan, returning from a three months' expedition to the Sub-Arctic to collect specimens for the field museum at Chicago, expects to be back in Christmas eve, near Wisconsin, Me., in ten days, according to a radiogram received Tuesday by D. W. Hoegge of the Evening Express. He planned to sail Tuesday for Sydney, N. S. from Battle Harbor, Labrador, with the schooners Bowdoin and Schienn.

YOUTH TUMBLES
FROM THRESHING
MACHINE; DIES

Son of Mr. and Mrs. Henry Lauer Receives Broken Neck in Fall

Eldon Lauer, 7-year-old son of Mr. and Mrs. Henry Lauer, 708 W. Lorain st., died at 3:30 Monday afternoon from injuries received in a fall from a threshing machine near the farm of an uncle, William Lauer, at Shiocton, a few minutes earlier. The youth received a broken neck and internal injuries.

Mr. and Mrs. Henry Lauer and their two sons, Eldon and John, had spent Sunday at the William Lauer farm. The parents returned that evening, leaving the two boys there for a week's visit with the latter's cousins, Robert and William Lauer.

All four boys were playing in the front yard of the farm home Monday afternoon when a threshing outfit, which had completed threshing on the Charles Froetter farm and was bound for the farm of Mrs. Mary Lauer, stopped in front of the home.

The boys asked for a ride and after securing permission, climbed onto the threshing machine. Suddenly Eldon lost his hold and fell to the ground, head first. The machine was not moving at the time. He died a few minutes later, shortly before the arrival of a physician.

Besides his parents, he is survived by one brother, John; one sister, Rose; and his grandparents, Mr. and Mrs. Frances Riedl and Mrs. Mary Lauer, all of Shiocton.

The funeral will be held at 9 o'clock Thursday morning from St. Joseph church here, and burial will be in St. Joseph cemetery.

MILWAUKEE CLUB HAS
\$8,841 FOR LENROOT

Madison—(AP)—The Lenrooters Milwaukee campaign organization, supporting Senator Irvine L. Lenroot, for renomination has spent \$8,807.12 and owes \$1,800.19, H. L. Ashworth, secretary, reported to the secretary of state Tuesday. Receipts of \$8,841 were reported.

EX-DEPUTY OF WOODMEN
IS DEAD IN LACROSSE

Lacrosse—(AP)—Ben F. Keeler, former state deputy of the Modern Woodmen and businessman of Lacrosse, died suddenly in his office Monday. He is survived by two children Roy F. (Tubby) Keeler, football coach of the Lacrosse State Normal school, and Mrs. Joseph Nashak.

ROOSEVELT IN THREE
TALKS AT MILWAUKEE

Milwaukee—(AP)—Colonel Theodore Roosevelt, who is here for a visit Tuesday will make three talks during the day. His first will be to members of the Harvard club, his second will be at the state fair and his third Tuesday evening for the 40 and 8. He will leave late Tuesday for St. Paul.

TOKIO BUDDHISTS TO
PRAY FOR CATS, DOGS

Tokyo—(AP)—Preparations are being made in Tokio's great cat and dog cemetery wherein repose the bodies of more than 20,000 pets, for the annual animal mass at which Buddhists prayers are said for their spirits.

INDICT 5 FOR MISUSE
OF TRUST COMPANY FUND

Atlanta, Ga.—(AP)—Fifteen indictments charging W. D. Manley, president of the defunct Bankers Trust company and four directors of the company, with misuse of the bank's fund, were returned by the Fulton county grand jury here Tuesday afternoon.

"MESSAGE" NOT
DELIVERED BY
HINDU LEADER

No Sign of World Teacher Found in Chicago Address of "Messiah"

Chicago—(AP)—For 15 minutes Tuesday while Jiddu Krishnamurti spoke to members of a children's order of Theosophy adults who thronged the auditorium behind the rows of children scanned the Hindu's lips for a message from the world teacher whom they expect to reappear through him. There was no sign. But delegates to the American Theosophical convention still hoped that the Krishnamurti visit would bring them the message they expect, perhaps late Tuesday when he addresses the order of the Star in the East, an advanced Theosophical group, which he heads.

Tuesday's talk before the order of round table, theosophical branch for children under 18 years of age, brought Krishnamurti for the first time before the microphone. He was noticeably disturbed by the necessity of talking into the microphone, by which his address was being broadcast, and some followers thought that but for this the world teacher might have brought a message through the lips of his holy man.

FAIRBANKS INTERESTED
Douglas Fairbanks and Mary Pickford were announced at Tuesday's meeting of the order of the round table to be interested in the group and Krishnamurti, remarking their interest, declared that they might help it to do great work. It was intimated that the Fairbanks-Pickford interest in order influenced the selection of Hollywood as site for a school for children to be established by the order for educating youth.

The largest vegetarian feast in Chicago's experience is coming Wednesday night when the American Theosophical society concludes its convention with a banquet. The nearest approach to meat will be the 7,200 eggs which have been ordered for the occasion. Nearly all of the Theosophists are vegetarians.

HAVE 274 LODGES
That the Chicago gathering is bringing Theosophy to "the threshold of important events—notably the expected coming of the great teacher" was cited in a report of L. W. Rogers, president of the American society. Mr. Rogers placed the active membership at 7,511 with 274 lodges.

The corner stone of the society's national headquarters was laid at Wheaton, Ill., a suburb, Sunday and when the structure is completed the Theosophists will establish a lecture branch, a training school for workers and a summer school in Theosophy. A correspondence school in Theosophy has just completed its third year.

DISCUSSES DISPUTE IN
MEXICO WITH COOLIDGE

Paul Smiths, N. Y.—(AP)—James A. Flaherty, supreme knight of the Knights of Columbus, will be received by President Coolidge Wednesday for a discussion of the resolution of the order calling for American intervention in Mexico to protect Catholic churches in their religious dispute with President Calles.

The escaped convicts who accompanied Ford and Todd gave their names as Jake Rubin, 23, of Cleveland, Ohio, convicted highway robber, and Victor Chicky, 22, of Grand Rapids, Mich. None of the convicts offered any resistance, when Toledo police suddenly appeared at the farm house and demanded their surrender.

Wife Of Architect Sues
Dancer For Alienation

Chicago—(AP)—A value of \$5,500 a month is placed by Miriam Noel Wright on the society of her husband Frank Lloyd Wright, celebrated architect.

She has brought suit here for \$100,000 damages against Mrs. Mila Mila, a Russian dancer, charging that for 13 months she has been deprived of her husband's companionship and entrance to their home due to the dancer's influence. Since December, 1924, Wright has ceased to love her, Mrs. Wright declared in her bill, her latest legal move since she was barred from Talliesen, Wright's villa near Spring Green, early in June, at that time she charged that Miss Milaoff was in the house and in the alienation suit she asserted the dancer persuaded Wright to oust her from Talliesen and to "false representations contrived to keep her away" from the home.

The suit charged that Wright was father of a child which she alleged was born to the dancer in Chicago, Dec. 1, 1925. In a declaration accompanying her suit she spoke of the loss of "the comfort, fellowship, love, affection, society and assistance" of her

husband, which she attributed to the dancer's youth, feminine charm and attractions, insidious and persistent wiles and machinations.

Wright in a statement at Spring Green called the suit "merely another move in Madame Noel's campaign to annoy and harass me. My deepest regret is that an innocent woman must be the victim of these calumnies."

Mila Milaoff is living abroad and the internationally known architect soon will join her, he said Tuesday at his Spring Green villa.

IS OUSTED

Frank Farrington, who was ousted Monday as president of the Illinois district mine workers' union, upon action by the executive board, following presentation of charges by John L. Lewis, president of the United Mine workers. Farrington admitted that he is now in the employ of the Peabody Coal Co. of Chicago, at a salary of \$25,000 a year.

16 BREAK JAIL
IN MICHIGAN;
6 STILL FREE

Also Continue Search for 9 Convicts Who Escaped from Reformatory

Lansing, Mich.—(AP)—Ingham-co. officers who had been engaged with other state agencies in the search for convicts who escaped Saturday from the Ionia reformatory Tuesday were diverted to the pursuit of six prisoners who chopped their way through a brick wall of the Ingham-co. jail at Mason Monday night and swung down to freedom on a blanket ladder. There were 16 prisoners in the cell block from which the six escaped but ten of them made no effort to flee.

State police Tuesday continued their search for nine of the 25 men who escaped from the Ionia reformatory Saturday. With the capture Tuesday of 4 men near Wauseon, Ohio, 16 of the convicts who overpowered their guards and fled have been retaken.

ARREST LEADERS IN ESCAPE

Toledo, O.—(AP)—Benton Ford and Franklin Todd, convicted Toledo bank bandits who led the jail delivery at the Michigan state reformatory at Ionia, Mich., in which 25 convicts escaped, Saturday morning were arrested in company with two other fugitive convicts on a farm near Wauseon, 35 miles west of here Monday night.

The escaped convicts who accompanied Ford and Todd gave their names as Jake Rubin, 23, of Cleveland, Ohio, convicted highway robber, and Victor Chicky, 22, of Grand Rapids, Mich. None of the convicts offered any resistance, when Toledo police suddenly appeared at the farm house and demanded their surrender.

WILLIAMS AND RICHARDS
WIN SECOND TENNIS SET

Brookline, Mass.—(AP)—R. Norris Williams and Vincent Richards defeating their opponents won their second round match in the national doubles championship Tuesday against Henry R. Guild of Boston, and Alex Graven of Chicago in straight sets, 6-3, 6-1, 6-3.

Talk About Your
Real Investments

Stocks and bond salesmen and all other persons anxious to have the people of Appleton invest their money will have to move fast to beat the opportunities offered in the Post-Crescent's classified section.

An expenditure of a small sum for one or two ads there will mean a neat return in rent money to anyone who is looking for a tenant or a lodger.

Mrs. Emma Demand, 813 N. Durkee street, wanted to rent her three room flat—so she ordered a Post-Crescent ad. She had more tenants than she could handle, she told us—and was pleased with the speed with which she rented the flat.

YOU will make an equally profitable investment if you let Post-Crescent classified ads rent your houses or increase your sales.

Just call 543.

MISS CHANCE TO NAB MAN WANTED ON CHECK CHARGE

Police Learn of Forger's Visit too Late to Catch Him

Carelessness on the part of a local businessman in not informing police of a stranger's attempt to cash checks in Appleton has probably resulted in a much wanted man from Kansas escaping the police net thrown out for him several hours too late, it was reported by Police Chief George T. Prim.

Last Thursday afternoon, so the story goes, a stranger, drove up to a local automobile repair and tire shop and ordered a considerable amount of work done on a large roadster. When the work was completed he tendered a check for \$50 of which \$15 was for the bill and the balance he asked for in cash. The check was drawn on the First National Bank of Appleton.

SLIGHTLY SUSPICIOUS

This feature roused the repair man's slumbering suspicions, he told police, but he said that as the customer then entered a dicker for a new tire he made a trip to a local hotel with him and postponed further dealing until the next morning. Here the local man saw the stranger tear up the \$50 check, but even this event did not cause the business man to report to Chief Prim, or the department.

The strange stranger explained to the repair man that although he was driving a Missouri car money was placed to his account in the local bank. He signed the check as George Detman and registered as such at the Appleton hotel.

SAME WRITING

Friday afternoon Chief Prim came into possession of a bad check on the First National bank for \$5, signed George Dillon. Hearing at the late date of the repair and tire exploits of the pseudo George Detman the chief immediately compared the handwriting on the hotel register with that on the bad check in his possession. They corresponded in every detail.

A wire sent by Chief Prim to Kansas City, Mo., elicited the information that one "Hugh Marsdell" had driven away in a rent-a-car carrying the Missouri license of the automobile on which the repairs were made here.

Mr. Marsdell, the wire stated, is badly wanted in Missouri.

Marsdell, alias Detman, checked out of the local hotel at 2 o'clock Friday morning. He missed an appointment to talk over purchasing tires, but he also missed a visit from police.

Authorities of the Fox river valley have been notified that the man is wanted here and in Missouri but without results so far, the chief said.

NEW PUPILS REGISTER AT M'KINLEY SCHOOL

Students entering McKinley Junior high school this year are to register between 9 and 12 o'clock Wednesday morning and from 1 to 4:30 Wednesday afternoon in the principal's office. F. E. Younger announced. Pupils who were promoted from the seventh and eighth grades last year will not have to register. Registrations are held for those entering from the parochial school and from the rural districts.

The old building used for the Junior high school has been remodeled during the summer. New dressing rooms and showers have been installed and several of the floors have been covered with linoleum. The old building has been repainted and new lighting fixtures installed and the walls have been redecorated.

WOMAN FALLS THROUGH SKYLIGHT IN LIBRARY

Mrs. Emma Vonck, 34, of Kimberly is in a serious condition at St. Elizabeth hospital as a result of a fall through a skylight at the Lawrence college library. Mrs. Vonck was washing the windows above the skylight when she lost her balance and crashed through the glass, landing on a library table about 15 feet below the roof. She landed on her hip breaking her pelvis.

The injured woman will be confined to the hospital for ten or twelve weeks according to the attending physician and it will be some time before she is out of danger.

APPOINT COMMITTEE TO ARRANGE RECEPTION

R. M. Eickmeyer, Robert Wood, Everett Wright and A. W. Markman were appointed to make arrangements for a farewell reception for C. L. Boynton, retiring activities secretary of the Y. M. C. A., at a special meeting of the Y's Men's club Monday evening at the association building. The club, of which Mr. Boynton is a charter member will sponsor the reception. Mr. Boynton is on his vacation at present but will return here before leaving for his new position.

Plans for the first regular fall meeting of the club also were discussed and a short business session was held. Several members signified their intention of visiting Camp Manitowish at Boulder Junction, state Y. M. C. A. camp, from Friday until Tuesday. At that time the regular camping season will be over at the camp and it will be thrown open to Y's Men's club of the state.

DIRTY CAMPAIGN, ZIMMERMAN SAYS

Candidate Says Madison Ring Is Engaged in Vilification

West Allis—(P)—Secretary of State Fred R. Zimmerman declared in a speech here Monday night that "the Madison ring campaign is without equal in Wisconsin's political history as a campaign noted chiefly for its dirt and smut."

He said he referred to the evil methods in conducting a campaign which is nothing more nor less than a campaign devoted to whispers concerning me as the alleged beneficiary of a "huge slush fund," as an alleged member of the Ku Klux Klan; as an alleged subscriber to a "Zimmerman-Lenroot compact"; and as a progressive "backslider."

"The Madison ring candidate for governor, in keeping the company he does, is barren of progressive principles and has resorted to the practice of deliberately misinterpreting the issues in my platform or perverting for his own purposes those which he thinks good for Wisconsin," Mr. Zimmerman said. "He is engaged in a campaign of deliberate misrepresentation."

"The tactics of the Madison ring are only disgracing the name La Follette gave the state for political square dealing in campaigns. The ring can almost be excused for the kind of a campaign it is making. The facts and the issues are against the members of the ring."

"The campaign the ring has been making has been aptly called a 'whispering campaign.' The members of the ring haven't dared to make unqualified charges and make them public. It has depended on undertones and whispers uttered in the most cowardly way imaginable. Indications today are that this 'whispering campaign' is to be intensified during the coming week as a last resort to stave off the defeat which looks the ring candidate for governor squarely in the eye."

PHOTOGRAPHERS RAISE BIG ADVERTISING FUNDS

A fund of more than \$150,000 will be raised by the National Photographer's association and a large manufacturer of photographic supplies to finance a

M'Farland Suspected In Canton Murder Mystery

John McFarland, sentenced to from three to fifteen years in the state penitentiary at Waupun last week when he pleaded guilty to robbing banks at Dale, Black Creek and other northeastern Wisconsin cities, almost found himself facing a murder charge after he was taken to the prison to begin sentence. Comparison of fingerprints Monday led authorities of Canton, O., who are seeking Patrick McDermott for questioning in the slaying of Don Mellett, newspaper publisher, last month to abandon hopes that McFarland was the fugitive.

KENNEY SAYS IT'S HIS TURN TO BE SHERIFF

Oconto—When a man has run three times for sheriff and been defeated every time it's about his turn to be elected.

That is the reasoning of Christ Kenney, who is making his fourth campaign for the office. He explains his line of reasoning in the following appeal to the voters of Oconto county:

"I wish to announce that I have been forced to go to the hospital for a few weeks and ask my friends and voters of Oconto county not to forget me in this campaign as I claim that it is my turn to be sheriff of Oconto county."

"This is the fourth time that I have run for this office and I have never been sheriff before. I have spent a lot of time and money in campaigning and I have made a study of the duties of the office for 10 years, during the time I was a member of the county board."

"I don't know of a single person who owes me a dollar in Oconto county, but I do claim you all owe me your vote Sept. 7."

"I wish to solicit the support of every lady and gentleman voter in Oconto county on Sept. 7 on the strength of honesty, principle and lower taxes. I have paid taxes for 40 years and have never had a lawsuit. I regret that I will be unable to see all my friends in this campaign. I have distributed 2,000 cards and have seen thousands put up but no cards read like mine. I say:

"Please vote for CHRIST KENNEY for Sheriff."

"I wish you all good luck on Sept. 7, 1926."

national advertising campaign to induce people to patronize the photographers, it was decided at the annual meeting of the association at Chicago from Aug. 23 to 28, according to E. H. Harwood, local photographer, who attended the meeting. W. T. Ross and J. J. Froehlich of Appleton also attended sessions of the conference.

To Safeguard Your New Building

Quite often a man who has just put up a new building does not understand why we cannot turn on the electricity as soon as he asks for it. However, when he hears our story he realizes the wisdom of our position.

It is one of the duties of our Service Division to make sure that the owner of a newly erected building or house has the Fire Insurance Underwriters' approval of electric wiring. Until a permit from the Underwriters' Association is given, we

cannot extend electric service. A city ordinance prevents this.

A certificate issued by the Underwriters' Inspector is a warrant against defective wiring which may originate a fire. It protects you — likewise your neighbor. All electric wiring is safe if properly installed.

Should you build a house, please have this in mind. When you call the Service Division to ask for electric service be sure you have made arrangements for your permit. Then there will be no delay.

FOUR PERSONS BITTEN BY MAD DOG AT SEYMOUR

Wild Canine Chases Through Crowd Attending Big Fair

Michael Trauffer, 226 N. Morrison st., and three other persons were bitten by a mad dog which ran through the streets of Seymour and the fair grounds early Wednesday evening during the fair. Others bitten were Earl Fenn, Navarino, a boy named Rose from Rose Lawn, a Trami boy of Isar and a man named Armitage of Nichols. All of the sufferers are receiving a modification of the Pasteur treatment for the prevention of hydrophobia, which is being administered by a Seymour physician.

The dog roamed about the fair grounds and streets from 7 o'clock until it was shot about 9:30 in the evening. Other persons in the crowd had their clothing torn by the canine and some were thought to have received slight wounds. The dog raced through the crowd from the Standard Oil Co. station to the fair grounds and made a circle of the grounds returning to the station and repeating the route seven times before the danger was discovered.

Motorcycle officers gave chase on their machines and when this plan failed volunteers with shotguns were placed along the walks. The chase and the armed men almost caused a riot in the crowd which did not understand what was going on. William Jansen, Seymour, shot the dog.

Although a few cases of rabies have been discovered among dogs of towns of Freedom, Osborn, and Oneida, there was no certainty that the Seymour dog was infected until a positive report was received from State Hygienic Laboratory, Madison.

McGowan was arrested in Minneapolis about three weeks ago. Four members of the gang of five which held up the Baldwin bank Dec. 3, 1925, are in prison. Blackie Lynch and John McFarland were sentenced in Appleton last week for robbery of the bank at Dale but are believed also to have been in on the Baldwin robbery. Two others, James King and White McBride, were convicted several months ago at Hudson, Wis., for participating in the Baldwin robbery.

McGowan was turned over to authorities from St. Croix county, Wisconsin, following his identification by two employees of the Baldwin bank.

Frank O. Letts, rural mail carrier, R. F. D. No. 4, is taking a vacation of one week. Mr. Letts split his two weeks government allowance having had one week away from duty earlier in the summer.

SELLS NEAR-BEER BUT FAILS TO GET PERMIT

A charge that he sold two police officers near beer when he had not previously gone through the formality of procuring a city license to dispense the foaming but innocuous brew resulted in the arrest of William Vandenberg, 525 W. Conego-ave., to face a charge of violating the city license ordinance. It was reported by Police Chief George T. Prim on Tuesday. Mr. Vandenberg was to be arraigned in municipal court.

where the head of the dog was sent for investigation.

Mr. and Mrs. A. Reinhardt were Green Bay visitors Monday.

CUTICURA HEALS SKIN TROUBLE

Hard Pimples Over Face, Itched and Burned, Skin Very Rough.

"The skin trouble I was bothered with was scattered all over my face. Some of the pimples were hard and some were not, but most of them were large and red and usually festering. They itched and burned and my skin was very rough."

"I used several remedies without success. I began using Cuticura Soap and Ointment and in a short time I could see that they were helping me. I continued the treatment and now I am healed." (Signed) Miss Grace Jones, Columbus, Kane.

Use Cuticura Soap, Ointment and Talcum to promote and maintain skin purity, skin comfort and skin health. The Soap to cleanse and purify. Ointment to soothe and heal and Talcum to powder.

Small Size, 25¢ each. Large Size, 50¢ each. Cuticura Soap, 25¢ each. Cuticura Ointment, 25¢ each. Cuticura Talcum, 25¢ each.

A Card of Thanks

Having disposed of our Milk business, we take this method of thanking our many friends and patrons for their past patronage, and assure them of a continuance of our policy, "The Best Milk in Appleton", which has always been our Slogan. We politely invite you to the City Hall (if interested) to prove our contention. In the City Hall you will find our milk the highest in butterfat test, and the lowest in sediment test. If not contented with that, come to our office and we will show you milk over (1) year old, preserved in its natural state without any preservatives whatever. We will also show you milk held the same length of time, and will let you be the judge as to which milk you want to use. We don't use nice newspaper phrases and tell you our milk is SO rich and SO pure and then give you milk which hardly contains the official fat standard. We come right out boldly and tell you, we have the "Best" Milk in the city, and then tell you where and how to find out, not by putting it on paper, but, to go to our Health Department for your information, or come to our office and see it with your own eyes. As we said before our successors who are Graduates in the Milk business, and have had years of experience with such corporations as the Kennedy Dairy Co. of Madison and others, will follow in our footsteps and give you the same quality of Milk and by-products just the same as we have given them to you. Sweet Cottage Cheese, Sweet Buttermilk, what we mean by this, is: Cottage Cheese and Buttermilk with the right amount of Lactic Acid, and the Cottage Cheese soft, so when you use it for baking it won't be like eating baked sawdust. Again thanking you and assuring you of our appreciation of your past patronage and continuance of the same considerate quality and service by our successors,

We beg to remain, gratefully,

CENSUS SHOWS MORE FARMERS IN WISCONSIN

Nearly 4,000 More Farms in State in 1925 Than Five Previous Years

The agricultural census for 1925 just issued by the Department of Commerce and the Bureau of the census shows that there were 193,155 farms in operation in Wisconsin last year as compared with 189,355 in 1920, and 177,127 in 1910, of which number 162,052 are operated by owners.

The remaining farms are operated by 29,326 tenants, and by 1,167 managers. The total area of the state is approximately 35,363,840 acres, and of the total about 21,850,853 acres is in farms. The acreage in farm land has decreased from 22,148,223 acres in 1920, but represents a gain from 21,061,046 in 1910. Of the total acreage in farms owners operate 17,562,429, tenants 4,009,835 acres, and managers 1,697,553.

Brown county had 3,401 farms in operation in 1925, or a decrease in number from 3,498 in 1920, and from 3,615 in 1910. Of the 3,401 farms in Brown county 2,886 are operated by owners, 10 by managers, and 467 by tenants the report says.

FARM ACREAGE DECREASES
Of the 338,560 acres of land in Brown county 87.3 per cent is in farms or a total of 295,112 acres. The acreage in farms has decreased from 304,745 acres in 1920, and 301,519 in 1910. The average farm last year contained 86.3 acres of land.

The value of farm land and buildings in Brown county in 1925 was \$33,117,328 which is a decrease of about \$300,000 since 1920, and a gain of \$10,000,000 since 1910. The total value of farm property in the county including land, buildings, machinery, and livestock is fixed at \$39,468,735. The average value of farm land including buildings is \$70.74 per acre, while land and buildings averages \$112.22 per acre.

Livestock on Brown county farms is valued at \$3,684,825. The stock includes 8,829 horses valued at \$346,967, and 75 mules valued at \$6,042, 48,810 cattle valued at \$2,518,425, and 1,070 sheep valued at \$10,983, and 38 goats valued at \$213 and 12,246 swine valued at \$128,928 and 169,568 chickens valued at \$164,481. During 1924 the cows milked totaled 33,223, and produced 20,066,692 gallons of milk.

\$2,776,119 TOTAL
The total value of the dairy products from Brown county farms in 1924 was \$2,776,119, according to this report. During the same year 21,027 acres of land in Brown county was devoted to corn. About 389 acres were harvested for grain with a total yield of 12,396 bushels, 16,237 acres were cut for silage yielding 116,948 tons, 4,341 acres were cut for fodder, and 517 acres were hogged. Only 1,215 acres of Brown county land was planted to wheat and yielded 30,866 bushels. On the other hand 41,341 acres of corn threshed for grain yielded 1,331,754 bushels of oats, while 610 acres were fed unthreshed. Barley harvested on 11,458 acres yielded 305,386 bushels, and rye on 6,148 acres yielded 117,474 bushels. The hay crop and yield 103,309 tons. Timothy and clover mixed occupied 56,543 acres while alfalfa covered only 5,916 acres of land.

ANOTHER DROP IN HIGHWAY TRAVEL

Count Is Made Before Badgers Start for State Fair

A total of 4,153 vehicles passed over state trunk highway 15 at Leminwah, in the annual 17 hour check conducted by Highway Commissioner A. C. Brusewitz each year at approximately the same date.

The count this year was made a trifle earlier than in past surveys so that an apparent falling off of traffic is probably due to the fact that heavy traffic headed to the state fair and homeward bound vacationists did not represent a proportionate percentage of the vehicles as in 1923, 1924 and 1925, it was pointed out by Miss Agnes Malone, who tabulated the figures Monday morning.

In 1923 the survey showed 5,477

College-ave; Albert Nohr for a garage at 1626 N. Oneida-st.; I. S. Kimball for a garage at 117 N. Mason-st.

EKERN TO GIVE 4 TALKS IN COUNTY

Candidate for Governor Will Tour Outagamie-co on Tuesday

Attorney-general Herman L. Ekern, LaFollette Progressive candidate for governor, arrived in Appleton early Tuesday morning from Antigo, where he gave an address Monday evening. Mr. Ekern spoke at Dale at 2 o'clock Tuesday afternoon at an open air meeting.

At 4:30 Mr. Ekern was to give an address at Kimberly and at 5:30 at Little Chute.

Mr. Ekern will speak at 8 o'clock Tuesday evening at Lawrence Memorial chapel. The meeting is to be conducted under auspices of the Outagamie Farmer Labor Progressive league. Fred Bachman, president, will preside.

vehicles passed the same intersection: 5,754 were counted in 1924, and 5,739 in 1925. These checks were all made during the first week in September, it was stated.

The survey this year was conducted between 6 o'clock in the morning and 11 at night on Aug. 25.

In the final figures were 3,108 Wisconsin automobiles; 533 foreign cars; 137 light trucks; 255 heavy trucks; 17 motorcycles and 23 horses

This Flavor
alone will satisfy you in quick cooking oats "Quaker" flavor

IN QUICK QUAKER—the world's fastest hot breakfast—the famous tasty flavor of the real Quaker Oats has been retained.

That, to you, is important; for flavor is the big point, after all, in food.

No other brand has that flavor. It took Quaker Oats experts years to attain it, and, at the same time, give you 3 to 5 minute cooking.

Quaker milling, too, retains much of the "bulk" of oats. And that makes laxatives less often needed. Protein, carbohydrates, and vitamins and this "bulk" are thus combined in making Quaker Oats an excellently balanced food.

That is why, in quick cooking oats, as in the regular, the important point to millions is to see the picture of a Quaker on the package of Oats that they buy.

Quick Quaker

NYE TO ARRIVE EARLY SATURDAY

Begin Preparations for Celebration in His Home Town

Senator Gerald P. Nye of North Dakota, will arrive in Hortonville early Saturday morning, according to a long distance phone call received by Samuel Sigman, secretary of the Farmer Labor league, Monday morning from Eric Onstead, Madison, secretary of the campaign committee for the La Follette Progressive candidates. Mr. Nye will give an address at Hortonville Saturday evening.

Fred Bachman, president of the league and Mr. Sigman were in Hortonville Monday afternoon to arrange for the homecoming celebration in Nye's honor. The senator formerly was a resident of Hortonville. He will remain at Hortonville over Sunday visiting friends.

Efforts are being made to have Senator Nye speak at an American Legion picnic Sunday afternoon at Bear Creek.

The United States produced \$638 books in 1922, as against \$329 in 1921.

A Good Name

priceless and therefore jealously upheld

Dodge Brothers have kept the faith. Year after year their motor car has continued to mature into a better and better product.

Beauty has been added to dependability, comfort and silence to beauty. Endless refinements have been made, and the basic sources of Dodge Brothers quality maintained in every detail.

As a consequence, the NAME Dodge Brothers is even more valuable than the great Dodge Brothers plant itself, and eminently worthy of the public confidence it everywhere inspires.

The public may rest assured that a Good Name so priceless will be safeguarded jealously by those who hold its destinies in their hands.

POLITICIANS CAUSE WARS

"Now tell us what 'twas all about."
Young Peterkin he cried:
And little Wilhelmie looks up
With wonder-waiting eyes:
"Now tell us all about the war."
And what they fought each other for.""It was the English," Kaspar cried.
"Who put the French to rout;
But what they fought each other for,
I could not well make out;
But everybody said," quoth he,
"That 'twas a famous victory.""With fire and sword the country round
Was wasted far and wide,
And many a childing mother then,
And new-born baby, died;
But things like that, you know, must be
At every famous victory."

Thus did the poet Southey put into verse the wastage, the cruelty, the mockery, and the utter futility of war. He was writing about the battle of Blenheim, the most important clash of the World's War fought a little over two hundred twenty years ago. Old Kaspar is telling his grandchildren about the great battle, of which he knows in his simple way only that it was "a famous victory", and he seems satisfied with that for he continues,

"Great praise the Duke of Marlborough won,
And our good Prince Eugene."
"Why 'twas a very wicked thing,"
Said little Wilhelmie.
"Nay, nay, my little girl,"
Quoth he,
"It was a famous victory.""And everybody praised the Duke,
Who this great fight did win."
"But what good came of it at last?"
Quoth little Peterkin.
"Why, that I cannot tell,"
Said he:
"But 'twas a famous victory."

At the end of that tremendous struggle many there were to offer good advice and sane suggestions so that future wars might be avoided. The advice was flouted and the suggestions ignored. It was said that that was surely the end of war, that nations would not go to war again because the people and their treasures were wasted and the youth of the land despoiled. But hardly had ten years elapsed when the struggle was on again.

War has seemed to be a heritage of the human race. But it is a wholly unnecessary one. In a major sense it has been caused by the actions of kings and politicians. We have divested ourselves of the kings but we groan under the load of politicians.

Shall we leave the last war period as the nations of the world left former gigantic struggles? Shall we close our eyes blindly to what is sure to happen in the future unless we take some step to avoid it? Shall we be led into the swamps of discord and struggle as the peoples of the world were led following the Napoleonic wars and all previous wars? This we do know: that unless some reasonable arrangement is made in advance to prevent war, we shall have it again. Can it be that the people of the earth today do not realize that during the last century, even omitting wars between the smaller nations, not a single ten year period elapsed without a bloody contest between the mighty nations,—every one of which perhaps could have been avoided? Is there anything more fearful, more terrible that we can pass on to our children than such a chaotic and uncertain situation which is so pregnant with war? Is there any finer blessing, any greater or more splendid advantage that we can leave them, than an agreement and understanding between the great nations of the world that none of them will go to war without first submitting to an impartial tribunal for investigation and report their various grievances? That does not prevent them from eventually going to war if they see

fit, but it provides a much needed delay during which time before the jury of the world the facts and the claims can be submitted.—and when the public opinion of the world is formed there is no nation either bold or strong enough to flaunt it.

Over forty centuries of known history of the human race are looking down upon us telling us in commanding language that without such an arrangement the world will continue to pursue its stumbling course over a highway slippery with human gore and covered with the wreckage of mangled bodies. Mr. Blaine takes the course that goes that way. It is the course invariably taken by politicians. The Blaines of 1704, after the battle of Blenheim, took the same course. So did they after Waterloo in 1815. Politicians see personal advantages to themselves by conjuring up all sorts of ghosts and goblins out of peace arrangements, and the determination of future wars depends upon how far they may mislead the people. Mr. Lenroot does not want to go that way. But those who care for more "famous victories", whatever the cost, or whatever it may be all about, and want their children and grandchildren used as cannon fodder, should not hesitate to vote for Mr. Blaine. If his kind be successful we can be certain of more Blenheims, Waterloos and Chateaus Thierrys.

WHO DOESN'T HATE US?

Writing on the question: "Is Pan-Americanism a Myth?" Frederick Simplic in the Independent tries to demonstrate that the United States is not only hated in Europe just now but in its own hemisphere—that it is the principal object of dislike on the part of all Latin-American nations.

Anybody who knows enough Spanish to stumble through a South or Central American newspaper has run across evidences that we are not exactly the fond parent and beloved neighbor that some of us suppose. Essentially it all boils down to this: We are successful and know how to do business freely, boldly and profitably. The Latin-Americans by reason of internal squabbles and antiquated methods as well as the nature of the races and perhaps the climate find themselves handicapped and in the position of economic dependencies or second fiddle states.

What are we to do about it? The best answer is, nothing. On the whole we conduct business with our neighbors far more honorably than we can ever trust them to conduct it with us. If we have had to extend the Monroe doctrine to the point of interfering now and then when a petty state has tried to crawl out of paying its just obligations, the step has been for the benefit of international credit and morality. We have not aimed at conquest, as is indicated by the fact that Cuba is free. Peace is upheld by our policy in Latin-American affairs, and if South America is "forced" to buy our products it is merely because they are the best and cheapest and hence a boon to the purchaser.

About the only way we could possibly turn away most of this kind of wrath in South America and in Europe would be to give away our riches, sink our ships, block our mines and oil wells, throw sand in our machinery and make ourselves as destitute as those who hate us. The real basis of hate of the United States is envy, and the sensible Yankee will regard it as a compliment and thank our flattering neighbors for it.

TODAY'S POEM

By HAL COCHRAN

Mother's been sewin' from morning till night,
Hiding the finished things far out of sight.
Seems kinda queer, but I guess it's all right.
Somebody's comin' to call.
Father's been savin' his money of late.
Plannin' on bills that he says will be great.
Keeps tellin' mom that he hardly can wait.
Somebody's comin' to call.
Sister's been fixin' the house up.
What fer? Honest to gosh, now, that isn't like her.
Somethin' is bound to make such things occur.
Somebody's comin' to call.
Grandma's arrived and she's rushin' about.
In on the secret, there isn't a doubt.
Seems that I've heard every one of them shout:
"Somebody's comin' to call."Blue beads are a token of bad luck in the orient.
A black eye is the token in America.

A married man simply has to do what a single man should.

While women first appeared on the stage along about 1790 many of them seem much older.

They don't ever seem to have a "Park by a fire plug" week.

Playing the piano by ear is nice, but some of them sound as if they were using their feet.

If you like to work you won't have any trouble finding someone to let you enjoy yourself.

Health Talks

BY WILLIAM BRADY, M. D.

Noted Physician and Author

Dr. Brady will answer all signed letters pertaining to health. Writer's names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

WELL WOMEN MAY BATHE

At one time or another nearly everybody is bound to be overtaken, I suppose by old fogeyism. Had a narrow squeak myself recently when I was launching one of my mean cracks at the mutilation known as bobbing the hair. I coupled that with a veritable old fogy condemnation of basketball played in public by high school girls. One high school girl player knocked me for a string of Woolworth beads by asking me what the objection was, and I scowled and blushed—I am glad to say I blushed, or at any rate I felt that way—and to admit that I was condemning a perfectly proper athletic activity merely because I happened to know of instances in which high school girls had abused the privileges and freedom from restraint which basketball games in other cities gave them. I have formally apologized here for that bit of old age—and I hope my young friends will keep an eye on me and see that I be myself in future.

This season, I think, there have been 10 times as many inquiries from girls and women about imaginary risks of going in swimming or taking baths in the course of the menstrual period than I have received in any previous year. I interpret this as a sign of awakening—the light is beginning to break through the mists of superstition and the clouds of misinformation which the nostrum and quackery interests have managed to keep hanging over the credulous sex. When these mists and clouds clear away and the sun shines brightly certain lines of lucrative if not very honest business are destined to peter out utterly. And believe me, women, the interests concerned are using all their secret power to keep your unenlightened sisters in the dark. So effective and far reaching is this secret power that I dare not speak more clearly about it. That's the truth.

Thanks to the gradual spread of physical education through our backward country, a new generation of girls now growing up is proving in many thousands of instances that all this stuff about the alleged dangers involved in going in swimming or in taking a bath in the course of menstruation is just bunk. Thousands of young college women have found that it is not only harmless to keep right on with the ordinary activities through the menstrual period but actually beneficial in most instances. A great many young women who have experienced some difficulty or irregularity in the establishment of this function, under the ill advised pampering policy at home, discover that their troubles presently disappear when they enter college and there follow the wholesome policy of ignoring the function so far as routine physical activities are concerned.

Expectant mothers may go in swimming or take baths as they are accustomed to do in ordinary circumstances.

Nursing mothers may do likewise. Children, either boys or girls, should be allowed to go swimming whenever they wish, whenever they enjoy the healthful sport, as many times a day as they wish, and they may remain in two minutes or two hours, as they prefer, every time—provided only that they are not feeble minded.

QUESTIONS AND ANSWERS

Whose Child

Parents or guardians of children over 3 years of age who wet the bed may find the instructions about diet, general care and training of the child helpful. I should be glad to send these instructions to those who need them. Write for them—no clipping, please—enclosed a stamped envelope bearing your address, and mention the age of your child. I shall not send such instructions to others than the parents or guardians of children affected.

LOOKING BACKWARD

25 YEARS AGO

Tuesday, Sept. 3, 1901

A party of Appleton ladies were entertained at a picnic that day at the Oneida Indian reservation. The annual meeting of the Riverview Country club was to be held that evening at the office of Paul V. Cary. Officers for the ensuing year were to be chosen and changes made in the constitution and bylaws.

Henry Ferry was to complete the canvas of New London that day for Bun's new directory of Appleton and Outagamie co. The directory was to be the most complete and valuable of its kind that ever been published here.

The Appleton baseball team was to play an exhibition game that day with the Oshkosh team at the Oshkosh fair.

Burglars entered the home of Mrs. Samuel Thompson the previous Saturday and stole a gold chain and an Old Fellow past grand jewel.

The Modern Woodmen of the Fox River valley held their annual picnic the previous day at Pierce Park. Mayor Hammel gave a short address.

Mrs. Peter McNaughton returned the previous Saturday from a two weeks visit at the Pan-American exposition.

Mrs. M. Steinhauer left the previous Sunday for New York where she was to make her future home. She was accompanied to Chicago by her son Marcus.

10 YEARS AGO

Tuesday, Aug. 29, 1916

Of the 36 men chosen the previous day to serve on the jury at the September term of the circuit court, eleven were from Appleton. They were: Herman Beske, John Vette, W. J. Wilson, John Luck, Otto Tully, Mike Albert, E. W. Sailerlich, C. J. Hoffman, Peter Merritt, John Ritger and D. H. Pierce.

Mr. and Mrs. A. C. Langstadt and Miss Clara Hartung were expected home that night from a ten days' automobile trip through northern Wisconsin and Michigan.

The home of Joseph Dedecker, State-st., was completely destroyed by fire at about 11 o'clock the previous night. The fire started in the attic over the kitchen and was thought to have been caused from an overloaded chimney.

Marriage licenses were issued to Alpheus Smith and Mary Woodcock of Oneida; William Colby and Mrs. Lillian Yankee of Greenview; William E. Thomas and Nellie Orblson, Appleton; Leroy J. Austin and Charlotte Burmeister of Appleton and Michael Oleva and Anna Raba of Kaukauna.

Miss Erna Peotter entertained a company of friends the previous Saturday evening, in honor of her birthday anniversary. Those present were the Misses Gertrude Assman, Verma Verwey, Elsie Peters, Blanche and Lulu Tornow, Ruby Fowell, Hattie Heimrath, George and Victor Verwey, Oscar Murphy, Carl Bauer, John Heimrath and Percy Scherke.

IMAGINED
---that's all
there is
to life

SMILE, DURN YE, SMILE

When the world seems set against ye,
An' yer prospects all look blue,
An' yer jest plum discouraged
That ye don't know what to do,
An' yer thoughts is so blamed gloomy
That life don't seem worth while,
Jest straighten up an' look ahead.
An' "Smile, durn ye smile."Ef things don't go to suit ye,
Twaunt help to nurse a grouch;
Ef yer money's done took wings and flew
Twaunt wearing out yer pouch;
Ef lyin' tongues has slandered ye
Don't fret and fume an' bile,
But thank the Lord the lies is lies.
An' "Smile, durn ye smile."Ef yer own misdeeds has caught ye,<
An' in dark despair ye grope,
For reliefin' of that ailment
I'll prescribe the same old dope:
Jest swaller down yer little dose
O' caltarnal or le
An' stiffen up yer backbone—
An' "Smile, durn ye smile."

Women who wear tight dresses on the street show bad taste, and many of them show bad form too, says Bill Egger.

The Question Box

BY FREDERIC J. HASKIN

Frederic J. Haskin is employed by this paper to handle the inquiries of our readers, and you are invited to call upon him as freely and as often as you please. Ask anything that is a matter of fact and the authority will be quoted you. There is no charge for this service. Ask what you want, sign your name and address, and enclose two cents in stamps for return postage. Address the Appleton Post-Crescent Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

Q. Has the head of Tutankhamen been uncovered? P. T. D.
A. Photographs of the head the wrappings of which have been removed are appearing in current English magazines.Q. How often has Suzanne Lenglen won the English championship for tennis among women? D. S.
A. She took the English championship for the sixth time.Q. How fast has a wheel been turned? P. M. S.
A. Probably the fastest turning wheel in the world is the turbine wheel on the special supercharger of the airplane used by Lieut. John Macready in attempting to break the world's altitude record. It makes 40,000 revolutions in a minute—about 700 a second.Q. Does the Eastern Shore lie wholly in Maryland? H. S. B.
A. The Eastern Shore is the name given to all that part of Maryland lying east of Chesapeake Bay and also the counties of Accomac and Northampton in Virginia. Delaware is sometimes included in the Eastern Shore.Q. Does the time of planting make any difference in the life of a plant? C. M. C.
A. The same plant, such as wheat, may be an annual if planted early and a biennial if planted late. Similarly plants such as the castor oil bean which are perennials in an equable climate are often annuals where there is a winter.Q. Can a caterpillar sting? L. N.
A. The caterpillar does sting and it is found that its stinging hairs may be blown through the air, lodge on a person, and produce a rash. The accounts for the stings people often receive when there has been no contact with caterpillars.Q. How long have artificial aids to hearing been used? T. N.
A. The first mechanical contrivance for the purpose of improving hearing was made by Dr. Yearlesley of London in 1818.Q. When did Lloyd George speak in this country after the War? T. H. S.
A. Lloyd George visited the United States arriving in October, 1923, and made very many addresses, speaking in twenty-two cities. His principal address was made in the Metropolitan Opera House, New York City, on November 1, and by means of the radio his speech was carried to more than 1,000,000 hearers.Q. Where does jute come from? G. M.
A. It is practically a monopoly of northeastern India. The United States is the third largest consumer of raw jute and buys about two-thirds of the gunny cloth made in India.Q. How many people visit the Metropolitan Museum of Art? C. O.
A. In 1925, the attendance was 1,156,102—the greatest number of visitors the Metropolitan has ever had.Q. What is the origin of the superstitious fear of two-dollar bills, and why is the corner torn away? F. T. D.
A. There is no national nor universal superstition regarding the two-dollar bill. Probably the reason it is considered unlucky is that it is easily mistaken for a one-dollar bill. Tearing the corner off makes it more conspicuous.

Are you putting it off or putting it over?

You can put it off until September 15th. But you should put it on right now.

Your Fall Trimble Hat is waiting in a weight you don't ave to wait to wear—

In ounces — less than your Straw. In style—tons more!

Decidedly the smart thing to do—

Better decide to see them to-day.

TRIMBLE HATS

ous and not so likely to be paid out instead of a one-dollar bill.

Q. Is there anything that can be done to make it possible to work in quicksand? C. H.

A. To make it possible to operate in quicksand engineers are accustomed to congeal them by forcing into them brines and other liquids at low temperatures.

Q. What does O. H. M. S. on a Canadian letter mean—W. M.
A. These letters in lieu of a stamp mean "On His Majesty's Service."Q. What is the derivation of the word grocer? N. T.
A. This was originally grosser, one who sold by the gross.Q. Is the Alaska hair seal skin ever used for garments? T. W. C.
A. Caps and slippers are often made made of this humble fur.Q. Is maple sugar made any place outside the United States? S. R.
A. The production of maple sugar and maple syrup is purely an American industry, Canada being the only country other than the United States where they are made.Q. How much ground should be allowed for a baseball diamond in a playground? A. R.
A. It depends on the size of the playground. A full-size diamond, 90 feet between bases, requires about three-fourths of an acre of ground. A small boy's diamond, 60 feet between bases, can be put on half an acre.Q. What causes ivy poisoning? C. M.
A. It is caused by a non-volatile oil contained in all parts of the plant and which remains in the tissues indefinitely, even after long drying. Contact with the plant or with objects that have come in contact with it will cause poisoning.Q. Is there a Japanese symbol for fidelity? R. E. M.
A. In Japanese art, the bamboo is used as a symbol of constancy and fidelity.Q. How can a pipe organ be kept clean? A. M. G.
A. Usually pipe organs are kept in proper condition by using a vacuum cleaner.Q. Why are silos round in form? A. W. K.
A. Round silos are more easily re-

inforced to withstand the bursting pressure and have no corners for air pockets, making it possible to pack the green feed as tightly as preserves in a glass.

Q. Is it important that a cow be milked at the same times each day and by the same person? P. H. T.
A. The Bureau of Dairying says that experiments lead to the belief that neither is an important factor in the quantity of quality of milk. The time may be varied a little when necessary, and the personal equation is negligible. It is much more important that the cows be fed with regularity.Q. When and where was the first Safety Congress held? L. R.
A. The first Cooperative Safety Congress was held in Milwaukee, Wisconsin, from September 30th to October 5th, 1913.Q. What was "The Duke of Exeter's daughter"? H. T. D.
A. When the rack as an instrument of torture was introduced into England in 1447 by John Holland, Duke of Exeter, who was at that time countable of the Tower of London, it speedily became known as "The Duke of Exeter's daughter."Q. When a freight car is spoken of as a forty car is that its weight, its capacity, or a combination of the two? A. O. N.
A. A 50-ton car is one with a freight capacity of that amount. One of the 40-foot car type will itself weigh about 24 tons.Q. What is a coalition cabinet? G. E.
A. A coalition cabinet is one in which members of all parties are represented.Q. What is the Mexican Blue Cross? T. C. B.
A. The American Red Cross says that there are a million Mexicans within the boundaries of the United States. Only five per cent of them speak English. They are Mexican citizens, and they live in the Mexican way, pursuing national habits and customs. Were they not in alien territory, this million might be cared for by the Mexican Red Cross. The task being one purely of social welfare, is not exactly in the line of the ordinary activities of the American Red Cross.

This people form a special problem, for which Mexico feels itself responsible. This there was organized at San Antonio, Texas, in October, 1919, the Mexican Blue Cross. Its service includes the distribution of food and clothing to those in want, the furnishing of the indigent or friendless dead, sick or needy to Mexico, and the burial of the dead, and the transportation of the living of physicians and medicines for it. It looks after Mexicans who are in trouble.

Q. Were there ever any camels on this continent except those imported or bred from imported stock? T. B. N.
A. Scientists say that camel fossils were unearthed in the Pleistocene Lakes of Oregon last year.Q. How many states have farm bureau federations? R. W.
A. At the close of last year there were 46 State Farm Bureau Federations, with 1800 County Farm bureaus and more than 12,000 community units organized and in operation.Q. When was patent leather first produced in this country? N. T. T.
A. The first specimen of patent or japanned leather produced in this country was made as an experiment by Seth Boyden, Newark, N. J. in 1819. In 1822 he commenced its manufacture on a small scale and established a large factory a few years later, about 1826.Q. Who started the express business in the United States? H. O. W.
A. The express business in this country was originated by W. F. Harnden, of Boston, on March 1, 1829, when in accordance with previous advertisement, he made a trip from Boston to New York as a public messenger. He carried a few books and some Southern and Western banknotes and his route was by railroad to Stonington and thence by steamboat to New York.Q. How much money is spent each year for the advertising carried on street cars? H. W. L.
A. The average expenditure of street railway cars for the last three years is placed at \$15,000,000.Q. Is the Knights of Columbus an insurance organization? D. T. S.
A. The Knights of Columbus is a fraternal benefit society, with insurance in this force on December 31, 1925, totaling \$258,594,637.33 and 226,281 insurance members.

The Head May Be Willing, But Races Are Run With Feet

40 Women At Luncheon At Country Club

Forty women were served at the regular weekly golf luncheon at 12:30 Monday at Riverview Country club. Eighteen entered for play in the tournament at 1:30.

Mrs. Kenneth Dickinson and Mrs. James Bergstrom, Jr., tied in the contest for low number of putts, each having 16. Mrs. William Guldotti won the prize for low net score with 41.

Other women who played in the tournament were Mrs. G. Pratt, Mrs. H. Nelson, Mrs. Harry Price, Mrs. Kimberly Stuart, Mrs. P. R. McCaull, Mrs. D. K. Brown, Mrs. John Pinkerton, Mrs. James Bergstrom and Mrs. George Gilbert of Neenah. Miss Hirsig of Madison, Mrs. Earl Miller, Miss Elizabeth Utz, Mrs. F. E. Holbrook and Mrs. McCormick and Mrs. Parmenter of Green Bay.

AUXILIARY OF EAGLES HOLDS VISITING DAY

The Ladies Auxiliary of Eagles will hold its first visiting day of the season at 2:30 Wednesday afternoon at Eagle hall. Schafkopf and dice will be played and a lunch will be served. The public is invited.

Mrs. Frank Dwyer is chairman of the committee in charge of the party. She will be assisted by Mrs. Edward Knaack, Mrs. Harp, Mrs. Sadie Del-tour and Mrs. John Hoh.

WOMEN PREPARE FOR LAST RETREAT

The last retreat of the season of the Missionary association of Catholic Women will be held from Sept. 2 to 6 at St. Mary home at Elm Grove. All women are invited to attend the retreat whether they are affiliated with the society. The national convention of the M. A. C. W. will be held on Sept. 7, following the retreat. Mrs. F. J. Rooney of Appleton, diocesan president, will attend the convention as delegate from the Green Bay diocese.

PARTIES

Mr. and Mrs. Henry East, route 2, Appleton, entertained 16 friends Sunday evening. Schafkopf was played and prizes were won by Mrs. A. Pfeifferle and S. A. Konz.

A progressive dinner will be given Saturday evening for Miss Babette Marshall and Normal Breslau who are to be married Sunday and for members of the bridal party. Courses will be served at the home of Mrs. V. P. Marshall, Mrs. J. Kahn, Mrs. W. L. Lyons and Mrs. J. P. Fiant.

Elmer Rahe was surprised Sunday afternoon at his home in Center in honor of his fourteenth birthday anniversary. Games were played. The guests included Alice, Helen and Carl Rohm, Arleen and Lucille Knaack, Hilda Riehl, Pearl, Laura and Edna Rahe, Marilyn Timm, Lloyd Riehl, Beryl and Zola Colburn, Everett Fliegel and Mr. and Mrs. W. J. Rahe.

Mrs. Arthur Schubring, Mrs. Norman Gerhartz and Mrs. Fred Bullert entertained 30 friends at the latter's home Friday evening in honor of Miss Hilda Buetow. Cards was played and prizes were won by Mrs. Charles Eltmann and Mrs. Albert Klammer.

Mrs. M. Perske and Mr. and Mrs. H. W. Perske and son attended a silver wedding anniversary celebration Saturday and Sunday at Horicon. The party was given for Mr. and Mrs. Albert Erdmann. About 40 guests were entertained over the weekend.

Miss Ada Kaplinest, Little Chute, entertained 18 girl friends Saturday in honor of her thirteenth birthday anniversary. Games furnished entertainment for the afternoon. Prizes were won by Leona Abitz, Doris Waltham and Margaret Leiseling.

Mr. and Mrs. Henry Krull, route 3, Appleton were surprised Friday evening in honor of Mrs. Krull's birthday anniversary. Cards was played. Those present were Mr. and Mrs. Louis Timm, Mr. and Mrs. Charles Roff and family, Mr. and Mrs. Paul Ashman and family, Mr. and Mrs. Charles Krull and family, Mr. and Mrs. Fred Krull, Mr. and Mrs. Edmund Krull and family, Mr. and Mrs. Henry Junge, Mr. and Mrs. Albert Junge and family, Mrs. Minnie Schultz and family, Mr. and Mrs. Oscar Heckel and Miss Hilda Krull.

John Weltzeln was surprised by about 70 friends and relatives Sunday evening at his home in Greenville, the occasion being his birthday anniversary. Games and cards furnished entertainment.

CARD PARTIES

Four tables were in play at the regular weekly Elk Skat tournament Monday night in Elk hall. Prizes were won by Robert Stammer, Otto Zuehlke and Dr. W. H. Mecker.

WOMAN PILOT IN AIR TOUR

Mrs. Susan Embrey, of Cincinnati is the only woman pilot in the Ford Reliability Tour, in which two dozen commercial planes are making an extended cross-country flight to prove their sturdiness. Note the huge beaded bag which she takes into the cockpit with her.

CHURCH SOCIETIES

There will be a meeting of the Women's Missionary society of First Reformed church at 7:30 Wednesday evening at the home of Mrs. August Brandt, 403 E. Franklin-st. This will be the regular monthly business meeting.

The Ladies Aid society of Mt. Olive Lutheran church will have a picnic meeting at 2:30 Wednesday afternoon at the home of Mrs. Ida Knoke, 327 N. Linwood ave. A short business meeting will be held before the picnic. Members are to meet at Mt. Olive Lutheran church where cars will be provided to take them to Mrs. Knoke's home.

The meeting of the Womens Missionary society of Trinity English Lutheran church which was to have been held Sept. 2, has been postponed until Sept. 9. The meeting was postponed because several of the officers are out of town.

The Ladies Aid society of Emmanuel Lutheran church of the town of Clayton, will hold its annual bazaar Wednesday afternoon and evening. The bazaar will be held on the church lawn. A lunch will be served.

The Young Peoples society of the Emmanuel Lutheran Church at Greenville will hold a regular meeting Thursday evening at the church. A program of games and a social hour will follow the business meeting.

LODGE NEWS

Officers of Kenomic lodge of Odd Fellows were appointed on a committee at the meeting Monday night at Odd Fellow hall to make plans for the district meeting of Odd Fellows to be held Sept. 11 at Stockbridge. About 20 or 30 members from Appleton are expected to attend.

The regular meeting of Fraternal Order of Eagles will be held at 8 o'clock Wednesday night in Eagle

Scientist Devises Camera For Use On Bottom Of Ocean

BY ISRAEL KLEIN

The mollusk, or shellfish, is the favorite study of Dr. Paul Bartsch, curator in the U. S. National Museum under the Smithsonian Institution at Washington.

These queer marine animals have led to Dr. Bartsch's being responsible for the invention of a new kind of movie camera, one that can be operated under water.

And the mollusks, in addition, may develop Dr. Bartsch into one of the world's most daring divers.

The test of the camera and of Dr. Bartsch's daredevilry is to be made soon at the Marine Biological Station of the Carnegie Institution at the Tortugas, small islands north of Haiti.

WEARS ONLY HELMET

There, Dr. Bartsch will cover his body with olive oil, don only a diver's helmet and drop to the bottom of the sea with his new camera to portray sea life in films. Rid of the cumbersome diver's apparel, he will be able to move about more freely.

The water at the depth to which he will descend is very cold and would produce violent chills unless some sort of protection was provided. This protection is furnished by the coat of olive oil which will allow him to stay under water as long as five or six hours. Air will be pumped to him from a launch above.

In this way, he has worked as deep as 35 feet below the surface, although he ordinarily works in a depth of 10 or 12 feet.

DISCLOSE SECRETS

Dr. Bartsch used a small camera in 1922 which couldn't be focused for fear of water leakage. The swaying of his body by the water currents, while he held the camera, induced sea-sickness in the audience that watched the film on the screen.

As a result Dr. Bartsch directed the construction of the new camera, which carries 400 feet of film, can be cranked by hand and so regulated as

to speed, and can be focused. It is also set up on a tripod for steadiness and can be tilted or turned for panoramic views.

Through this camera Dr. Bartsch expects to reveal more intimately the life of the sea, what groups of marine animals and plants gather together and under what conditions.

The sea carries the secret of existence, scientists believe, from the earliest form of life to the latest.

Here may be found perhaps the only link between animal and plant life—an animal with roots in the ground but depending on food floating to it through the water.

Here, more significantly, may be seen practically all stages of evolution in living animal form, up to the point where sea life joins that of the land. The single-cell amoeba still creeps along the bottom of the ocean bed, feeding on whatever tiny particle comes in its way, and being devoured alike by the larger animals above it.

PASTOR MOVES CHURCH TO WHERE CROWDS ARE

Cumberland — Instead of going to "meet" in its own edifice Sunday, the local Congregational church congregation took nearly all the available cars of the parish and formed a veritable church on wheels that brought an outdoor church service to picnickers and resorters at nearby parks, who had found the temptation to enjoy an outing stronger than the desire to sit inside a church. Four stops were made. The pastor, F. G. Elwick, conceived the idea.

The first stop of the day was made at Wayside park on the Coolidge school grounds, where the autos parked in a circle. The choir and congregation sang and the Rev. Elwick delivered his sermon.

The second auto stop was made at Granite Lake park, five miles north of

hall. Routine business will be discussed.

Deborah Rebekah lodge will hold its regular meeting at 7:45 Wednesday night in Odd Fellow hall. Routine business is on the calendar.

The life and drum corps of the Ladies Auxiliary of Eagles will meet at 7:30 Tuesday night in Eagle hall. All members are requested to be present.

EAGER SHOPPERS THROG STORES

Salesgirls Dread Bargain Days

Louisa was tired. From morning until night she had been on her feet in the busy department store.

No matter how she felt, she must serve her customers with a smile. Her head throbbed and her feet ached. Week after week, she felt her strength ebbing until she was in a run-down condition, not fit to work.

"My mother suggested that I try Lydia E. Pinkham's Vegetable Compound," she writes. "I took only three bottles and it brought me about all right." Through the Vegetable Compound, she found better health to do her work and she told the other girls about it.

That was several years ago. Louisa is now Mrs. L. J. Van Dyke of 1246 Spring St., Morrell Park, Baltimore, Md. She is the mother of three healthy, active children. She says that she found the tonic effect of the Vegetable Compound helpful to her during this entire period.

Every working girl knows that to do her work properly and easily she must have good health. She can not afford to lose time from her work.

Girls who suffer from a run-down condition should try Lydia E. Pinkham's Vegetable Compound.

HIGH MORTALITY RATE AMONG INFANTS IN U. S.

Washington —(AP)— Approximately 100,000 babies under 1 month old die in the United States every year, and in every 12 months' period there are at least 100,000 still births, according to a report of the children's bureau of the department of labor, prepared by Dr. Robert Morse Woodbury. Maternal mortality rates in this country are among the highest in the world.

"A very considerable proportion of all deaths of infants under 1 year occur from causes which have their origin in the care and condition of mothers during pregnancy and confinement," says the report, adding that reduction in maternal and infant deaths depends on improvement and extension of facilities for prenatal and post-natal care.

Dr. Woodbury estimates the total annual number of maternal deaths in the United States on the basis of 1921 birth registration area statistics to be 13,281.

here, and the third stop was made at Lakeview school park. At each stop the service was repeated, picnickers at the parks taking part.

The itinerant church gave its final service in the evening at the tourist park in this city where seats were placed inside the circle of cars to accommodate the crowd.

START SEARCH FOR MENOMINEE FIREBUG

Menominee, Mich.—Fire destroyed the Rainbow Terrace gardens, 12 miles north of here, Sunday, and an investigation into the origin of the fire, suspected of being incendiary, was started Monday by Fred L. Bedard, deputy state fire marshal, assisted by county authorities and state troopers. Bloodhounds are to be brought here from Mauston, Wis., in an attempt to trail the person believed to have set the fire.

The incendiary suspect is believed to be the same person who recently poisoned 30 pure bred dairy cattle on the farm of the Larson brothers, three miles from the destroyed dance hall. He is also believed to be the same person who, on Aug. 29, 1925, burned 30,000 feet of lumber to be used in the erection of Rainbow Terrace gardens. Farmers of the vicinity have appealed to the authorities for protection of their property.

The loss on the dance hall is placed by the owners, Roubal brothers, at \$10,000. The fire broke out shortly after a dance.

New Orleans Black Devils, Darboy Dance, Friday, Sept. 3.

Smith Sisters at Stephenville Thursday Night.

INVITE PEOPLE TO ATTEND FREE CLINIC

People of Appleton are invited to attend the regular monthly free clinic to be conducted by the Appleton Women's club from 1:30 to 5 o'clock Saturday afternoon at the Appleton Womens club.

The examination at the clinic will include the heart and lungs, glands of the neck, nose, throat and mouth. Children under 16 must be accompanied by a parent or some other person. There will be no charges for examination. Dr. C. D. Boyd, medical director at Riverview sanatorium, will have charge of the clinic.

OLD MAGAZINE TELLS STORY OF RAIL PROGRESS

H. S. STUDENTS WILL REGISTER LATE THIS WEEK

Find Copy of Publication
Printed at Kaukauna 22
Years Ago

Thursday and Friday Designated as Registration Days

Kaukauna—William Melody, local man, has in his possession a copy of the November 1904 issue of the "Railway Echo," a monthly journal which was published in Kaukauna at that time and was devoted exclusively to a railroad men. It was published at a time when Kaukauna was a terminal for the Chicago and Northwestern Railroad. Nearly seventy-five men were employed in the local railroad offices alone at that time. Now approximately fifteen are employed.

The magazine was published in the Times building in this city and the first number made its appearance in March 1904. All the work of editing was done by clerks and officials from the local railroad office. Charles C. Nelson was general manager and editor and Thomas O. Kerrigan was secretary and treasurer. The Kaukauna Y. M. C. A. had a special section in the book which was devoted entirely to notes on the local branch. Officers of the Kaukauna Y. M. C. A. at that time were Dr. H. E. Turner, president; William Cambler, vice president; A. E. Johnson, recording secretary; F. Kowalek, treasurer and Percy W. Gliboske, secretary.

A story, "The Humorous Side of Stage Life," written by William A. Nugent, local man and nationally known musical director, appears in the magazine. James A. Golden of Kaukauna and later Wausau contributed many poems to the "Railway Echo."

One of Mr. Golden's best known poems is "Equality in Death." It appears in the November issue. Among others are "The Fireman's Call," "Who Judges?" and "When Brian Conner Slept." The last named was written for "The Messenger," a paper published by St. Mary's Catholic at that time.

Part of the magazine was devoted to news notes from Appleton. Many items tell of the developments planned by the Chicago and Northwestern Railway system at that time. Among them were plans for double tracking the road from Fond du Lac to Green Bay and continuing the line from Manitowoc to near Conover. Sixty thousand ties were used in building the southern or Manitowoc end of the then proposed line. The new terminal depot at Appleton was formally opened on November 1, 1904. Twenty thousand dollars was spent on building a bridge over the canal near the Interlake Pulp and Paper company's mill at Appleton. The Northwestern system had just secured permission and options for building a new freight line through the west side of Sheboygan, now known as the cut-off.

ATTENDS MEETING TO ARRANGE FOR TOURNEY

Kaukauna—P. R. Maginnis, Y. M. C. A. secretary, represented Kaukauna at the meeting of local representatives from Neenah, Menasha, Appleton, Kimberly, Kaukauna and Green Bay, at Appleton Monday. Plans were made for holding a valley softball tournament in Appleton within the next week or two.

FIX REGISTRATION DAY FOR MUSIC SCHOOL

Kaukauna—Students who are planning to enter St. Mary School of Music this fall are to register during the week of August 30, according to an announcement Monday by Sister M. Fermina, head of the music department. Classes will start next week and it is important that the students begin their music work the same time they do their other studies, it was said. The faculty of the school will be the same as last year.

KAUKAUNA PERSONALS

Kaukauna — Miss Margaret Dhine and Miss Marie Sullivan of Stevens Point spent Sunday visiting at the home of Mr. and Mrs. H. T. Runte. William Garvey spent the weekend in Green Bay.

Mr. and Mrs. Albert Paschen and son Harold of Green Bay spent Monday in Kaukauna visiting relatives. Gordon Van Lieshout was a Green Bay caller Friday evening.

Mrs. Joseph Gossens and daughters Angela and Agatha spent Sunday in Milwaukee.

Mike McCarty left for Milwaukee Monday.

Mr. and Mrs. F. Olm attended the skat tournament at Elkhardt lake Sunday.

Miss Zella Peranteau returned from a week's vacation at Milwaukee Sunday.

Arthur Hipp, Herbert Homan, Ethel Brewster, and William Pahnke motored to Plum Creek over the weekend.

Miss Helen Pahnke and Clifford Pahnke are attending the state fair at Milwaukee.

Miss Genevieve Hoolihan left Saturday for Polk lake where she will spend the week as a guest of friends.

Mrs. P. A. Smith and daughter Lucille of Combined Locks returned home Sunday after a three weeks trip through Iowa.

Carl Runte and Amay Bayorgeon returned from the Dells Saturday where they had spent several days.

Mrs. William Miller and sons Arthur and Willis left for Milwaukee Monday where they will spend the remainder of the week.

CLERKS SECOND IN BALL LEAGUE

Defeat Thilmann Crew, 10 to 8, in Last Game of Season

Kaukauna—The Clerks soft ball team finished in second place in Kaukauna Twilight league race by virtue of their 10 to 8 win over the Thilmann team Monday evening at the municipal playgrounds. This was the last game of the year for both teams.

No one tallied until the last of the second inning when Berens scored the first run for the Clerks. Neither team scored in the third but the Clerks and the mill crew scored twice in the fourth. Lazon and Gerend bringing home the counters for the Thilmann outfit and Ashauer and Berens scoring for the retail men. Thilmann was unable to get on base in the fifth while Van Lieshout, Nagel, Andrews and Hass scored for the Clerks in that frame. Minkebege brought in a run for Thilmann in the sixth and Van Lieshout, Nagel and Minkebege scored again for the business men. It was getting dark and the mill crew took advantage of the Clerks inability to see the ball and ran in five runs in the seventh. Fahlstrom, Locy, Brenzel, Gerend and Minkebege doing the scoring. Thilmann got 13 hits off Minkebege and the Clerks got 17 off of Brenzel's under-hand movement.

The lineup:
Clerks—Minkebege, Hass, Brenzel, Andrews, Maul, Van Lieshout, Bollnake, Ashauer, Maul and Berens.
Thilmann — Brenzel, Minkebege, Fahlstrom, Schmalz, Klammer, Dix, Locy, Gerend, Dix Beyer and Lazon.

Social Items

Kaukauna—Mrs. James Jones entertained the Leisure Hour club at her home Tuesday afternoon. The afternoon was spent in playing schafkopf.

Knights of Columbus ladies will hold their regular meetings again every other Thursday starting Thursday this week. Plans for the coming year will be made at this week's meeting and a social hour will follow the meeting. There will be no election of officers until the next meeting two weeks from Thursday. Hostesses for the meeting are Mrs. Forest Banning, chairman; Mrs. Archie Crevierre, Mrs. Marshall Bayorgeon, Mrs. Margaret Berens and Miss Veronica Berens.

The Wednesday Afternoon Schafkopf club will meet at the home of Mrs. Charles Lowry Wednesday afternoon. The time will be spent in

FOUR INJURED IN CAR ACCIDENT ARE RECOVERING

Kaukauna Woman and Guests Taken to Manitowoc Hospital After Wreck

Kaukauna—Mrs. Meade Richardson, Mr. and Mrs. Elmer Richardson and a year old daughter Sarah Ellen, were reported to be doing nicely at the Manitowoc hospital where they were taken late Friday afternoon after being struck by another car two miles from Manitowoc on the Rapids road. They were on their way to Manitowoc to visit relatives and were in Elmer Richardson's car. They had just reached a crossing when a car came out of a country road, striking them before they could get out of the way. The Richardson car turned over three times, finally landing on its wheels nearly fifty feet from where it was hit.

All four occupants in the car were thrown through the roof of the car, and Elmer Richardson hit a post and suffered a broken hip while Mrs. Meade Richardson was thrown thirty feet from the car and was badly cut about the face and body and suffered greatly from shock. The younger Mrs. Richardson fell on her feet and suffered only minor bruises. The child was cut about the legs. Mrs. Meade Richardson was unconscious for several hours while Elmer Richardson did not recover consciousness until early the next morning.

Mrs. Meade Richardson is the wife of a local photographer and Elmer Richardson is her son, who with his wife and child were spending their vacation in this city. The younger Richardsons are from Paducah, Ky.

playing schafkopf.

The Misses Dorothy Van Lieshout, Ione Hilgenberg, Amanda Haid and Cordeell Runte entertained at a farewell party Saturday evening at Miss Runte's home in honor of the Misses Lucille Lang, Cleo Bayorgeon, Agatha and Angela Gossens who are leaving for Marquette university this week. The evening was spent in dancing. Those who attended from out of town were Reid Winsey and William Lee.

Mr. and Mrs. L. E. Vandenberg entertained a group of friends at their summer home at Rockland beach Sunday. Swimming and cards furnished entertainment. Mr. and Mrs. William Wittmann of Oconto Falls were the out-of-town guests.

The Rose Rebekah lodge will hold a card party at the Odd Fellow hall Tuesday evening. Schafkopf will be played.

EXPECT LARGE CROWD AT LABOR DAY PROGRAM

Special to the Post-Crescent
New London—Demand for tickets for the Labor Day program to be sponsored here Monday, Sept. 6, by the American Legion post of Maple Grove points to a large attendance, according to the committee in charge. The program will include 15 concessions of the Kaukauna Amusement Co., an airplane which will take up passengers, and dancing in the afternoon and evening.

LADIES' AID SOCIETY WILL MEET THURSDAY

Special to the Post-Crescent
New London—The Ladies' Aid society of the Emmanuel Lutheran church will meet at 2:30 Thursday afternoon at the church parlors. The committee in charge includes Mesdames Fred Reuter, Henry Reiter, Fred Radtke, Henry Spearbreaker, Fred Schneider, Walter Stern, Albert Stern, Otto Stern, Walter Speiering and Henry Ruhsam.

WOMAN PAYS DAMAGES CAUSED MILK WAGON

Kaukauna—Mrs. Elizabeth Baker, 1635 Menard-ave, Chicago was allowed to proceed on her way home when she paid for damages caused by hitting a milk wagon belonging to H. Conkey of this city. The accident occurred on the Green Bay road north of Kaukauna Saturday. Mrs. Baker after hitting the wagon did not stop. Police officials here telephoned a description of the car to Appleton and she was stopped by the police in that city. Two wheels were torn off the milk wagon.

SIXTEEN PLAYERS IN TENNIS TOURNAMENT

Kaukauna—Sixteen of Kaukauna's best tennis players will compete on the municipal courts starting Sunday morning for the city championship. All have been actively engaged in playing tennis during the year. The contest will be strictly elimination, only the winners continuing in the pairings. No pairings will be made until Sunday morning just before the matches. It is thought that the first match will start at 9 o'clock. Al Sieudel, Berens is defending champion while Elmer Ott was 1926 runner-up. Both will be in the tournament.

DORCAS SOCIETY TO ELECT NEW OFFICERS

Special to Post-Crescent
New London—Officers of the Dorcas Society of the First Methodist church will be elected at a meeting at 2:30 Thursday afternoon, Sept. 9, at the church parlors. The committee in charge of the social and lunch is composed of Mrs. Chris Prall, Mrs. Frank Andrews, Wallace Wells, and Mrs. Edna Dailey.

ISSUE INVITATIONS FOR LUNCHEON AND BRIDGE

Special to Post-Crescent
New London—Mrs. George Demming, Mrs. David Blisset and Mrs. John Seering have issued invitations for a luncheon and bridge at 1 o'clock Friday afternoon. The party will be held at the home of Mrs. Demming.

CHILTON WOMAN IS HOSTESS AT BRIDGE

Mr. and Mrs. Kenneth Barber, who have been visiting the latter's parents, Mr. and Mrs. Ralph Mortimer, returned to their home in Oak Park Monday.

WEYAUWEGA LAD FALLS FROM AUTO; CUTS EYE

Special to Post-Crescent
Weyauwega—Frederick Kneip, 6-year-old son of William Kneip of the town of Royalton, was badly injured at about six o'clock Sunday afternoon when he fell out of the Kneip car and struck his head, cutting a deep gash in his right eye.

He was riding in the car owned by his father, with his two sisters, Dorothy and Clara, when rounding a corner, coming from their home toward Weyauwega on the road near the Wausau hospital, the door of the car opened and little Frederick fell out. He was taken to two physicians and later to Mercy hospital, Oshkosh. Mr. and Mrs. Kneip took the boy to Oshkosh, returning that night.

On Monday Mr. and Mrs. Kneip went to see him and an X-ray was to be taken to ascertain how badly his scalp was injured.

Henry Buckholz and son of Amherst, were driving south on highway 18, three miles west of Weyauwega, when the sedan left the road and turned turtle. The top of the sedan was completely smashed, and the body was badly damaged. The windshield was broken and Mr. Buckholz was badly cut about the head.

Fred Hanson, proprietor of a garage at Bloomfield, was arrested Friday afternoon for driving an automobile while intoxicated. He drove to Sam

pleton visited the latter's mother, Mrs. Samuel Vincent, at Hayton Sunday.

Mr. and Mrs. Kenneth Barber, who have been visiting the latter's parents, Mr. and Mrs. Ralph Mortimer, returned to their home in Oak Park Monday.

Mr. and Mrs. Al Hintz of Ripon, were Sunday guests of Mr. and Mrs. Howard Green.

Salzman's and tried to order Mrs. Salzman out of her home. She called Mr. Salzman, who called Chief of police B. Bellinger and the latter arrested the man. Hanson pleaded guilty to the charge before Justice Taggart and paid a fine of \$50.00 and costs.

Mr. and Mrs. George Lillie and children of Shawano, are guests of Mr. and Mrs. George Stevens and family.

Mrs. William J. Nienhaus entertained a group of friends at bridge at her home Friday afternoon.

Mrs. M. E. Lewis entertained the Deacons society of the Methodist church Friday afternoon.

Noan Oesau of Milwaukee, has been spending the past week with his mother, Mrs. Myrtle Olson. He returned to Milwaukee, Sunday.

Mr. and Mrs. Raymond Behnke and baby, Laura, and Harriet Behnke of Milwaukee, were guests of relatives here on Sunday.

Mr. and Mrs. Al Hintz of Ripon, were Sunday guests of Mr. and Mrs. Howard Green.

Married Folks Dance at 12 Cor., Wed., Sept. 1. Come!

97 WIS. ST. PATENTS
BRANCH OFFICE
WISCONSIN
YOUNG AND YOUNG

Important Announcement LONG DISTANCE TELEPHONE SERVICE CHANGES

Affecting Calls to Points Outside of Wisconsin

Effective October 1, 1926

Reductions in Long Distance Interstate Rates

To points outside of Wisconsin, 150 miles or more distant, the rates will be substantially reduced. The greater the distance, the greater the reduction. For example we cite the following basic station-to-station rates:

	Present Rate	New Rate (Effective Oct. 1, 1926)
Manitowoc to Kansas City.....	\$ 3.15	\$2.40
Appleton to San Francisco.....	11.80	8.15
Marinette to Chicago.....	1.45	1.25
Stevens Point to Cincinnati.....	2.90	2.20
Chippewa Falls to Chicago.....	1.85	1.55

A few rates for distances between 24 and 110 miles will be adjusted to make the schedule consistent throughout, but in these cases the increase of the basic station-to-station rate will be only five cents.

Reversed Charges on Station-to-Station Calls to and from Points Outside of Wisconsin

Heretofore the reversal of charges has been available only on person-to-person calls. As a further convenience to the public this privilege will be extended to station-to-station calls where the rate is 25 cents or more on interstate calls.

Longer Reduced Rate Period on Calls to Points Outside of Wisconsin

On such calls reduced rate hours for station-to-station calls will begin at 7 P. M. instead of 8:30 P. M., as formerly. Between 7 and 8:30 P. M. the discount will be approximately 25 per cent. of the day station-to-station rates; from 8:30 P. M. to 4:30 A. M., the discount will be about 50 per cent. of the day rates. These discounts will apply where the day station-to-station rate is 40 cents or more, with a minimum reduced rate of 35 cents. Because of the unsatisfactory service conditions which it brought about, the existing midnight discount will be discontinued on interstate calls.

Long Distance Calls Within State

Pending formal authorization by the Railroad Commission of Wisconsin, Long Distance telephone rates and service between points within the state will remain unchanged.

The net result of these rate changes will be a saving to the telephone users of the United States of approximately \$3,000,000 a year. The service changes are made in the interests of public convenience, to relieve the burden now imposed by the congestion of business at midnight and to furnish still better long distance service.

For further information we urge you to write, telephone or call at our Business Office.

STAGE And SCREEN

NEW TWIST GIVEN
TO RURAL DRAMA
IN "THANK YOU"

There is a different twist from most small town dramas in "Thank You," the William Fox production of the John Golden stage success, at the New Bijou today and Wednesday. There is no mortgage on the old homestead.

no misjudged daughter to be cast out into the raging snowstorm—in fact, none of the old hokum that one expects in the rural plays and pictures.

Instead, "Thank You" is built on a theme just as intensely human yet with a novel turn. The chief character of the story is a veteran preacher of the small-town flock, the Rev. David Lee (played by Alec B. Francis), and the plot hinges upon the injustices that are heaped upon him by his parsimonious and narrow-minded parishioners.

Of course, there is a love story running parallel with the other story, and the chief roles in this phase of "Thank You" are most acceptably handled by George O'Brien and Jacqueline Logan.

Other notables in this all-star cast include J. Farrell MacDonald, George Fawcett, James Neill, William Courtwright, Marion Harlan, Vivian Ogden, Edith Bostwick and Frankie Bailey.

John Ford directed, the screen version is by Frances Marion from the play by Winchell Smith and Tom Cushing.

"THE GREATER GLORY" SCORES AS EMOTIONAL MASTER-PIECE
Stunning in its realism, with a tremendous appeal to human sympathies, "The Greater Glory," at the Elite Theatre for the last times today and tomorrow, is a picture in a thousand. Nothing approaching it in emotional sweep has been seen on the screen in many seasons.

Anna Q. Nilsson, Conway Tearle, Lucy Beaumont, May Allison, Ian Keith and Jean Hersholt, the principal players, are to be credited with giving superb performances. And no less poignant and pertinent performances are contributed by Nigel de Bruiler, John Sainpaulis, Marcia Munon, Edward Earle, Virginia Southern, Hale Hamilton, Cora Macey and Isabel Keith. Many others, too many to be mentioned here, complete the long cast of this First National picture.

The story, summarized in a few paragraphs, relates how Fanny von Berg, favorite niece of Tante (Aunt) Hide, lovable old-fashioned aristocrat, around whom the life of a voluminous

host of kinfolk revolves, is sent from Vienna to a drab farm by stern relatives to permit them to outlive a scandal that Fanny unwittingly has precipitated upon their proud heads. Fanny is played by Miss Nilsson and Tante Hide by Miss Beaumont.

Fanny rebels, quits the farm and soon in the ensuing world war, becomes a central figure in the extravagant night life in the city, which is sustained by the war barons and food profiteers. Yet it is this demimondaine's big-heartedness that supports her aloof relations when war's blight descends upon them.

"The Greater Glory" has the tribute of tears in addition to the laudation of laughter. June Mathis, who supervised the production, adds another opus of glory to her records, fully deserving to rank with her "Four Horsemen" and "Blood and Sand."

JUICE OF LEMON WHITENS SKIN

The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of Orichard White, which any druggist will supply for a few cents. Shake well in a bottle, and you have a whole quarter-pint of the most wonderful skin whitener, softener and beautifier.

Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion; also as a freckle, sunburn and tan bleach. You must mix this remarkable lotion yourself. It can not be bought ready to use because it acts best immediately after it is prepared.

FUEL OIL HEATER

We are now making installations on the Breeze Burnoil Heaters. These stoves are absolutely noiseless, odorless and very easy to operate. Come in and see our demonstration.

This heater is just the thing for small homes, stores, small buildings, offices, garages, filling stations, or anywhere a coal stove is used.

Price \$60.00
Stove complete with 5 gallon tank, and burner. Additional cost for larger storage tank.

CORN CROP BELOW NORMAL; OATS IS EXCELLENT

GOOD WEATHER WILL PROMISE FAIR HARVEST

Oat Yield Will Be 10 Per Cent in Excess of Average for Last 5 Years

Unsettled weather conditions during the summer have retarded the corn crop until there is no hope of a normal yield this year, but given three consecutive weeks of warm weather and the result will be a fairly satisfactory crop, in the opinion of County Agent Robert Amundson.

Several warm days have worked a miracle with the probable production so far, and although the growth noted throughout Outagamie-co. is "ragged" as to size of the stalks and general development the retarded corn is beginning to show indications of maturing, the agent said.

LESS SILAGE THIS YEAR
If the county puts down 300,000 tons of silage from 12,000 acres planted to corn this year it will be because ideal growing conditions continue until the crop is ready for harvest, Mr. Amundson believes.

The average silage production of Outagamie-co. is approximately 357,000 tons, records show. The average acreage planted rarely varies more than two per cent one way or the other from year to year.

BANNER OAT CROP
Outagamie-co. will thresh a banner oat crop this year, probably in the neighborhood of 1,850,000 bushels, a ten per cent excess of the average for five years past, it was forecast by Mr. Amundson.

Although the 1925 oats crop is not expected to measure up to the 1925 bumper production of slightly more than 2,000,000 bushels, the grain has proved eminently satisfactory this year, he declared.

An average of 53,000 acres is sowed to oats annually in the county and an average yield of 37 bushels an acre is expected. This average is holding up well, it was stated.

RAIN DOES DAMAGE
About one-third of the total small grain crop of the county has been damaged by recent heavy rains, some to the point of sprouting in the shock, Mr. Amundson pointed out, but added that conditions are not such as to cause undue alarm.

Threshing of the various crops started this week but probably will not be completed for between two and three weeks, according to reports.

ELDERLY MINISTER ATTENDS CAMP MEETING

Special to Post-Crescent
Forest Junction—Among the clergymen at the Forest Junction Camp meeting is G. Fritzsche, one of the oldest ministers in the Wisconsin Conference. Although 89 years of age, he has delivered several addresses.

Thursday evening marked the opening of the E. L. C. E. and S. S. Convention. The opening address was given by Rev. C. H. Stauffacher of Cedar Rapids, Ia. The address was in the English language. The Convention closes Sunday evening.

Mrs. John Huebner of Crivitz, who attended the Camp meeting, left for Waukesha to visit her parents.

Mrs. Ed Walker and son of Stevens Point are visiting with the former's relatives here.

Fred Huebner of Flat Rock, Ark., attended the camp meeting.

Mr. and Mrs. Rev. H. H. Kotin and daughter, Viola, a former pastor of here but now of Clintonville, attended the Camp meeting.

Mrs. Charles Bates of Green Bay called here Tuesday.

Prof. Albert Franzke, accompanied by his sister, Elsie of Appleton attended the Camp meeting.

FORTUNE IN BLUE GRASS

HOME-MADE SEED STRIPPER DESIGNED BY D. A. GELVIN. GELVIN SHOWN IN INSET.

Matthand, Mo.—Almost 10,000 bushels of blue grass seed have just been stripped here from what is said to be the largest field in the world devoted to that purpose.

Twelve strippers were run daily for almost a week in the 540-acre field owned by D. A. Gelvin, millinaire farmer and cattle feeder, during the harvest.

Several years ago, Gelvin, known throughout the country as an expert in this line of farming, devised a machine that enables him to rapidly gather the ripe seed before it falls to the ground and is lost, and to take the place of the hand stripper.

With the front side open, the machine appears to be a large empty box mounted on wheels. It is flat and clears the ground about nine inches. Gear to the wheels is a large

New Building To House Waupaca Fair Exhibits

BY W. F. WINSEY
Weyauwega—When the gates of the Waupaca County fair are thrown open to the public on Sept. 13, a new building lately erected on the grounds to house the township exhibits will be used and appreciated for the first time as well as improvements in the electric lighting system and race track. The new building is 36 by 120 feet, divided into 22 booths, 10 by 12 feet each, and is floored with cement. The race track was regraded in places where that improvement was needed and the entire surface given

CATTLE RETEST TAKES 4 MONTHS

About 800 Herds Will Be Examined by Four Veterinary Surgeons

Four veterinary surgeons under the federal department of agriculture, Bureau of Animal Industry, will not conclude tuberculin tests on cattle in Outagamie-co. for more than two months, it was reported last week.

The work, it was pointed out, is in the nature of a retest with 800 herds to be examined. Delays are encountered because the testers are often called away from their work to other sections for short periods where their services are needed at once, it was explained.

LESS T-B AMONG HOGS NOTICED AS DISEASE OF CATTLE LESSENS

Washington—With current progress in eradicating tuberculosis from cattle, a noticeable decline of the same disease among swine is taking place.
This announcement by the Bureau of Animal Industry, United States Department of Agriculture, is based on field observations and by records of the federal meat inspection service which shows a sharp decline in the loss per hog due to tuberculosis infection.

RAPID FARM ADVANCE

"We may expect that in the future much of the marvelous agricultural development that has taken place in the United States during the last half century will be duplicated to a considerable extent in the temperate regions of South America," says Leon M. Detabrook, completing two years' study of South American agriculture.

SALE OF BADGER CATTLE REVEALS GROWING EDMAND

12,685 More Head Sold First 6 Months This Year Than in First Half of 1925

Madison—(P)—A growing demand for Wisconsin dairy cattle in other sections of the world resulted in a large increase in sales during the first six months of the past year in comparison with a similar period in 1925.

The increased demand is emphasized by the report of the department of agriculture showing 35,503 head of cows were sold during the first half of this year—12,685 more than the same period in 1925.

The purchasers live in 42 states and six foreign countries—Canada, Mexico, Japan, France, Central American,

and South America. Illinois led during the period as the largest market for Wisconsin dairy cattle, with Iowa second, New York third, Indiana fourth and Minnesota fifth.

While no figures are available, the sales represent a financial return of thousands of dollars to Wisconsin dairymen whose work in breeding purebred and good grade cows with a record for high milk production has attracted world wide attention.

Dairymen note the demand for good grade cows in the east as one significant phase of the market. Eastern purchases have been very largely of the grade stock with some prices as high as \$225. Buyers attribute the demand for grade stock from Wisconsin farms to the fact that they are largely free from tuberculosis and that they cost less to raise here due to cheaper feed prices than in the east.

COUNTY TENTH IN SILO PERCENTAGE

Seventy-seven Out of Every 100 Outagamie Farms Have Equipment

Outagamie-co. ranks tenth among Wisconsin counties in the percentage of farms equipped with silos, according to a report by Paul O. Nyhus, federal-state agricultural statistician. Seventy-seven per cent of all farms in this county have silos, according to the report. Dodge-co. is first with 86 per cent. The percentages of other counties: Sheboygan, 84; Waukesha, 82; Walworth, 81; Jefferson, 80; Wau-paca, 80; Ozaukee, 79; Washington, 78; Fond du Lac, 78; Calumet, 77; Ashland, 76; Brown, 60; Chippewa, 55; Dane, 70; Eau Claire, 47; Kenosha, 70; La Crosse, 69; Manitowoc, 70; Marathon, 49; Marinette, 42; Milwaukee, 47; Oconto, 44; Racine, 65; Rock, 68; Winnebago, 66; Wood, 64.

CHINA GRASS SERVES AS NEW FORAGE CROP

McNeil, Mass.—Centipede grass introduced from China and tested several years here and at Tifton and Gainesville, promises to rejuvenate southern pastures. The grass has long surface runners or stolons, which in their numerous root connections with the soil somewhat resemble a centipede.

When more seed becomes available, centipede grass is expected to become popular in the Gulf states for pastures, lawns and golf courses.

MAKE SURVEY OF LIVE POULTRY IN NEW YORK

A survey of the live poultry market in New York City has been started by the United States Department of Agriculture as a basis for suggesting improvements in the present system and to determine the advisability of the department establishing a market news service on live poultry for the city.

You Are Invited To Attend The GRAND OPENING of Our New Store Wednesday, Sept. 1st

It will be our aim to specialize in Ladies' and Misses' Dresses, Coats, Millinery and Accessories. Dependable merchandise at moderate prices.

Everything shown in our store was personally selected in the New York market during the past week, from leading manufacturers, and embraces the very newest styles, colors and materials.

We plan to give you real service and personal attention and hope to merit your patronage.

Come in, let's get acquainted!

Roses Will Be Given Away To The Ladies

We like Appleton, and hope you will like us.

PHONE COMPANY CUTS RATES ON LONG TOLL CALLS

Sharp Reductions Ordered on Basis Rates on Interstate Calls

Important changes involving a general readjustment in long distance rates for calls to points outside the state 150 miles or more distant from the calling center and in the evening and night period during which reduced rates apply, are announced by the Wisconsin Telephone company. The changes are effective Oct. 1. They are made for the benefit of users of long distance service and to eliminate service difficulties which the present schedule has brought about.

The net result of the readjustment in rates will be a saving to the telephone users of the country of approximately three million dollars a year. To points 150 miles or more distant and located outside of Wisconsin the rates are substantially reduced. The greater the distance, the greater the reduction. For example: from Appleton to San Francisco the basic station-to-station rate will be \$3.15 instead of \$11.50; from Eau Claire to Chicago, \$1.50 instead of \$1.80; from Racine to Kansas City, \$2.20 instead of \$2.50; from Green Bay to Cleveland, \$2.00 instead of \$2.50, and from Janesville to Detroit, \$1.65 instead of \$2.05. Long distance cables, carrier systems, vacuum tube repeaters, loading coils and other improved devices and methods, resulting from continuous scientific research and development applied to the telephone industry, have effected economies in the longer circuits, and have a share in making these reductions possible.

One of the interesting changes from the public's viewpoint is that by which one and a half hours have been added to the reduced rate period. Reduced rates on station-to-station calls for points beyond the border of the state will begin at 7 p. m. instead of 8:30 p. m., as formerly. Between 7 p. m. and 8:30 p. m. the discount will be approximately 25 per cent. of the day station-to-station rates, and from 8:30 p. m. to 4:30 a. m. about 50 per cent. of the day rates. Because of the unsatisfactory service conditions which it brought about, the existing midnight discount is discontinued.

LOWEST RATES AT EIGHT-THIRTY

Under the new schedule station-to-station calls for points outside of Wisconsin may be made at substantial reductions as early as 7 p. m., and persons wishing to take advantage of the lowest rates of the 24 hours may make their calls any time after 8:30 p. m. Thus, although the midnight discount is discontinued, the longer reduced rate period and the substantial reductions applying in basic rates to distant points mean that this change will make little difference in the cost of night calls.

REVERSAL PRIVILEGE

Another change that will be welcomed is the extension of the privilege of reversing charges to include station-to-station calls for points outside of Wisconsin—whether placed during the day, evening or night—where the rate is 25 cents or more. In the last few years the use of long distance service has been increasing constantly and many situations now arise where the reversal of charges is of advantage to the customer who calls

STAMMER GETS JOB TO PAINT CHURCH ADDITION

The contract to paint the \$40,000 addition to First Baptist church was awarded to Robert Stammer, Appleton, at a meeting of the church building committee. All contracts for the addition now have been awarded and the work will be rushed in an effort to complete the building before cold weather sets in.

Pouring of concrete in the foundation forms was started Monday. George Ahlman, Appleton contractor is in charge of the general construction. The heating contract was awarded to John Engel, wiring contract to Langstadt Electric company and the plumbing contract to W. S. Patterson company, Appleton.

EASY TO PUT DAD IN JAIL BUT HARD TO GET HIM OUT

Family Has Father Arrested and Try to Keep Him Out of Court

Family disciplinary measures missed fire to some degree Tuesday morning when Anton Budweiser, 58, 1813 N. Onondaga, was taken before Judge Theodore Berg in municipal court to face a drunkenness charge.

According to reports made by the family to police, Mr. Budweiser, a painter and paper hanger by trade, had been visiting nearby cities in the Fox river valley where, his daughters said, he evidently procured liquid refreshments of a potent variety. The potency, they pointed out, was so great that living with the husband and father after these trips was an experience sufficient to warrant the asking of police to allow Mr. Budweiser to spend a night in jail.

At 10:30 Monday night police were called to the Budweiser residence. Mr. Budweiser was taken to the city jail. Tuesday morning members of the family appealed to Police Chief George T. Prim to view the matter informally, allow them to pay a nominal fine at police headquarters and allow the prisoner to depart in a supposedly sober and chastened state of mind.

Chief Prim pointed out that the organization of a police department is not primarily intended to function as arbitrator in family dissensions and declared that once the wheels of the law had started turning they would turn until Mr. Budweiser's case was disposed of through the ordinary channels of justice.

Members of the family were ordered to appear in court or to take the consequences in being subpoenaed before the judge to tell their side of the story regarding their reasons for asking for Mr. Budweiser's 10 hour incarceration.

REVENGE

Sea Is Giving Up Salts To Protect Gasoline Supply

The sea is beginning to give up a part of its great store of minerals and salts to help check the vastly increasing demand for gasoline in this country, as well as improve the efficiency of our automobile engines.

This assistance comes in the form of bromine, a chemical long useful in photography and medicine, as well as metallurgy, and now found important as an aid for automotive power. Its part in the automobile world is in combination with a leaded form of anti-knock compound which, if used in connection with gasoline, will not only keep the engine from knocking, but will increase the efficiency of the gasoline used and will cause a saving of as much as 40 per cent in fuel.

This is the conclusion of chemists, both governmental and private, in making an annual saving of more than four million gallons of gasoline in this country alone, if the compound were used with all fuel bought.

BROMINE IMPORTANT
Looking forward to this great saving in a commodity which is fast giving out, Carl R. De Long, chief of the chemical division of the U. S. Tariff Commission, emphasizes the

FINISH COUNTY HIGHWAY WORK BY NEXT MONTH

Last of Road Projects This Year Will Be Completed in October

Several concrete jobs in which county aid is forthcoming, many minor gravel and repair jobs, and one \$50,000 gravel project between Shiocton and Bear Creek on state highway 76, will all be completed by October, it was reported at the office of the county highway commission, Monday.

The new construction program was light this year, it was stated. Laying 6,000 square yards of concrete at Seymour, a combined city and county job will probably cost the county about \$35,000; work done jointly between Appleton and the county will probably receive about \$13,000 county aid. The latter was on Cherry street. A \$20,000 county aid project has been completed at the village of Kimberly and Combined Locks, as also have three small jobs on highway 15, Depott and Dodge-Sts. in Kaukauna. The county's share of the latter projects will be approximately \$17,000, according to records.

With the exception of minor projects of virtually a routine nature, the only large unfinished job is the gravel project on 76, it was reported.

Although considerable bridge work was accomplished this year none was of particular large physical or financial dimension.

importance of bromine in this connection. Although only one five-hundredth of the minerals and salts in the sea, bromine, the sea contains two trillion, four hundred billion tons of it. And that, being replenished continually, by the rivers of the world, makes the supply almost inexhaustible.

In addition there are the salt water lakes of the country, from which much bromine can be extracted. The Ohio valley and the Kanawha valley district in West Virginia also are sources of bromine and the chemical may be recovered from the by-product waters, or "mother liquor" that remains from salt water after the salt is extracted by solar evaporation or otherwise.

Bromine from the sea, however, is practically a new industry. Only one steamer, the Ethyl, now roams the oceans extracting this important chemical from the salt water. Its capacity is about 50 tons of bromine a month. A ton of bromine at present costs almost \$1000.

About 1800 gallons of sea water must be treated to get one pound of bromine. With about 3000 million gallons of the anti-knock gasoline marketed in a little more than two years, De Long says, about 12,500 tons of bromine were needed—far more than the lone Ethyl could extract. This points to the great field for more bromine ships at sea.

QUANTITY REQUIRED
If the entire consumption of gasoline were treated with the leaded anti-knock compound, De Long estimates, ninety million pounds of bromine would be needed annually. If only one-tenth were so treated, it would require a quantity of bromine nearly three times our maximum consumption of 1924.

Bromine, used in the form of ethylene bromide, prevents the lead in the anti-knock compound from damaging the porcelain spark plugs and also keeps the lead from seeping into the metals of the cylinders, pistons and plugs.

As one of the products of the sea, it has been dragged down into the ocean by the action of the rivers on their mineral beds. This, too, explains why the sea is salt—salt being the combination of chlorine and sodium which has been brought into the ocean in enormous quantities for the millions and millions of years past.

KAUKAUNA MAN LEASES NORTH SIDE THEATRE

William Van Dyke, owner and operator of the Vaudeville theater, on the south side at Kaukauna, announced Tuesday that a deal has been consummated whereby he has become the lessor and operator of the Bijou theater on the north side as well.

The Bijou, it was reported, will be remodeled and redecorated. The formal opening dates will be made public on Friday, it was stated.

Cleveland, who has been managing the theatres of the Bijou will retire from active interest in the show house after the performance Tuesday night.

NO GAG ON COURT IN STATE, BLAINE TELLS AUDIENCE

Governor Says Anti-Courts Have Gained More Recruits

Cleveland—(AP)—Governor John J. Blaine asserted in a speech here Tuesday that "the last few days have brought forth new recruits against the World Court."

"My opponent has utterly failed to meet the issue of the 'World Court,'" the governor said. "He has attempted to brush it aside by claiming that it is not an issue. In effect his contention is that we are in the World Court, and that when the League of Nations ratifies America's reservations that is the end of the matter. What are we going to do about it?"

"My answer is: Get out of this League of Nations court, and America is going to get out of it. I will vote for a resolution in the senate withdrawing America from the court. Republican senators from other states who voted for the World Court have been overwhelmingly defeated in recent primaries. The people are unalterably opposed to any of these foreign entangling alliances."

"The last few days have brought forth new recruits against the World Court. Senator Gooding of Idaho, who voted for the World Court, on bended knees pled with the Republican convention that if it would renom-

Glossy Hair Ever Curly

By Edna Wallace Hopper

That glow in my hair, that fluff, that wave are not due to a hair dresser. I have no time for that care. They are due to a dressing some famous experts made for me. I call it my Wave and Sheen. That glitter, that curl, that seeming abundance come from applying that dress twice a week.

I think every girl and woman will be glad to know it. Your hair's beauty will be doubled in an hour. You will need no more Marcel waves. All hair counters now supply Edna Wallace Hopper's Wave and Sheen. The price is 75c. You will find my guarantee in the little bottle. It will cost nothing if it doesn't do what I say. Go try it today.

inate him he would vote to withdraw from the World Court. Senator Trammell, a Democrat from Florida, just announced that it is best for America to stay out of the court, and that he will vote to withdraw from the court. "The World Court was driven through the senate under cloture, and debate was cut short, the gag rule was applied, and the league court jammed through the senate. The proponents of the court have been unable to apply the gag rule to cut short debate in this state, and I have carried the issue into every section of the state, before the open forum of the people. I am convinced that the people of Wisconsin are unwilling to tie the America to any League of Nations court. Wisconsin is unwilling to be tied to Europe's charlats or war."

Move to Farm

Mr. and Mrs. Herbert Plaster and family, 1344 N. Onondaga, moved to a 20 acre farm about five miles north of Seymour this week. The farm formerly was owned by Mrs. Mary Steben, who moved to Appleton and will occupy the Plaster home on Onondaga St. Mr. Plaster was employed at the Tuttle Press.

Bed-Bugs Killed This Magic Way

Here is the simple and quick way to kill bed bugs, roaches and fleas: Just pour some of the new chemical discovery—P.D.Q., wherever you find these pests. The moment it touches the insects—they die. It can do no damage to your springs or furniture; won't rot or stain clothing. P.D.Q. is used and recommended by leading hotels, hospitals and railroads as the quickest and safest way of getting rid of the pest. It kills the insects and their eggs and stops them from hatching and multiplying. A 5c package of this golden chemical will make a quart of mixture—so easily it will kill a million bed bugs. P.D.Q. can also be used in double-strength liquid form—ready for use. Free patent about enables you to trench hard to get at places with ease. Get P.D.Q. at your druggist's today. Your money back, if the bugs are not gone tomorrow.

GIVE NEW YORK COP COLOR BLIND ALIBI

New York—(AP)—Chasing past a Park traffic sign a visitor paused at the far curb to give a hard-boiled policeman something new in alibis: "Sorry, officer, but I'm color blind—your lights mean nothing to me, and

a trip down Park Avenue for me is the same as navigating 'Buzards' Bay channel with all shore lights gone out."

One man in every eight is said to be color blind, with red and green not registering at all in his eyes.

Macaroni in the older sense, meant elegant.

A United States Rubber Company Plant in Sumatra for the production of Sprayed Rubber. Scientific rubber growing on a United States Rubber Company plantation. United States Tube Factory at Indianapolis—the largest tube factory in the world.

Some Questions and Answers about United States Water-Cured Tubes

Question—What is the Water-Cure Process?
Answer—The Water-Cure Process is a new method of curing or vulcanizing automobile tubes now in use in the United States Rubber Company tube factories.

Question—How does it differ from the old process?
Answer—During vulcanization heat and pressure must be applied to the tube. The old method used steam to supply this pressure and heat. The new method uses water under high pressure and at steam temperature.

Question—Why does this make a better tube?
Answer—In the old steam method the pressure could not be applied evenly. Small air bubbles were formed in the tube, each of which became a source of weakness.

The new Water-Cure Process eliminates the possibility of such bubbles by its heavy, even pressure. It also insures better union between the tube and the valve-base, and at the same time gives the rubber itself a finer, longer-wearing, more age-resisting texture.

Question—Can water-curing alone make a good tube?
Answer—No. A good tube demands good rubber, proper construction and proper splicing as well.

Question—How are these provided in United States Tubes?

Answer—The rubber used is Sprayed Rubber, the purest and most uniform rubber known. It is made from rubber latex from the United States Rubber Company's own plantations, by a process developed and patented by the Company.

United States Tubes are constructed of four plies of rubber. Most other tubes are made of one or at most two. Splicing is done by a specially developed method, which not only assures uniformly strong splices but also limits the pressure and heat to the splice itself and does not tend to weaken the rest of the tube.

STRONG PROGRAM
OF RACES FOR
OSHKOSH FAIR

Annual Winnebago-co Ex-
position Opens on Sept.
21

Neenah—The seventeenth annual Winnebago-co fair and exposition will be held at Oshkosh Sept. 21, 22, 23 and 24. According to the preliminary list which has just been distributed the fair will be operated day and night and will be bigger and better than ever. It is divided into 16 divisions with a superintendent at the head of each. The divisions are horses, cattle, swine, poultry, dairy products, bees and honey, farm products, fruits, flowers, pantry stores, women and children's work, fine arts, machinery, educational exhibits and junior farm department. Cash prizes are awarded in all departments.

The speed program opens Tuesday, Sept. 21 with a 2:25 trot and 2:15 pace with a \$400 purse for each. Wednesday there will be a 2:14 trot, purse \$400; three year old or under pace, \$400; and 2:17 pace, \$400. Thursday's program consists of a 2:25 pace, \$400; 2:15 trot, \$400; and 3-year-old or under trot, \$300. Friday there will be a 2:11 trot, purse \$500; and free for all, purse \$500. A horse pulling contest will be one of the features on Tuesday. Teams weighing 3,000 pounds or more will be entered in one contest and teams weighing under \$3,000 pounds will be entered in another. The prizes will be \$25, \$15 and \$10. Numerous free attractions in the line of amusement are being offered.

AWARD PENNANT TO
DINGY RACE WINNERS

Neenah—Robert Marty and Donald Ruch have been awarded the Nodaway Yacht club pennant for winning the final race in the junior class in the dingies. The race was sailed Monday afternoon in a perfect wind. The first event was won by Gordon Brown and Raymond Gollmeier; the second and third by Frank Shattuck, Jr. and Douglas Barnhart; and the third by George Birmingham and John Hewitt. The final race was won by Robert Marty and Donald Ruch, and Gordon Brown and Raymond Gollmeier, second. The boat sailed by H. Neubauer and John Strang was disabled and had to withdraw from the race.

The pennant will be presented to the winners Wednesday evening at a banquet at the Neenah Nodaway Yacht club at the Valley Inn. This will be the annual banquet of the club.

TWIN CITY ROTARIANS
GUESTS IN APPLETON

Neenah—Rotarians of Neenah and Appleton were guests Tuesday afternoon at a picnic at Pierce park in that city. The program includes a baseball game, tug of war and picnic supper. They will remain to the concert to be given by the 120th Field artillery band in the evening.

The condition of H. L. Sherman who submitted to an operation for appendicitis at St. Elizabeth hospital Sunday was improved Tuesday.

PRECINCT CHAIRMAN
REPORT ON CAMPAIGN

Precinct chairmen will give reports on the work in their districts at the third meeting of the Outagamie Farmer Labor League at Trades and Labor hall Saturday evening. These men were appointed to office at the last meeting of the league and have been in charge of the distribution of campaign literature in their territory, enlisting new members in the league and in a campaign to get Progressive candidates to register to vote in the primary.

The sample ballots of the La Follette Progressive Republican slate will be given to the chairmen for distribution. One of these ballots will be placed in the hands of every voter in the county.

Smith Sisters at Stephenville Thursday Night.

E. F. U. ELECTS
WILLIAMS AS ITS
VICE PRESIDENT

Make Changes in Official
Family Following Palmer's
Death

Neenah—At a special meeting of the supreme board of trustees of the Equitable Fraternal union Monday evening in the home office building changes in the administrative forces of the society were made to fill the vacancy caused by the death of the former supreme vice president and treasurer, E. H. Palmer.

The two offices which had been merged by the action of the supreme assembly in June were realigned, the Vice Presidency being tendered Norton J. Williams, the present field manager, while the treasury was linked with that of the secretaryship so that Dr. J. Thompson becomes secretary-treasurer.

The appointment of Mr. Williams to the vice presidency, necessitated the filing of a supreme trusteeship and Judge Jeremiah O'Neil of Prairie du Chien, Wisconsin, was elected to the vacancy.

Judge Jeremiah O'Neil, has been a member of the E. F. U. from April 14, 1903, a period of over 24 years.

Mr. Williams' membership with the society has been since Feb. 9, 1905, over 21 years, and during that time he has held the important offices in the assembly at Madison, where he lived until a year ago when he moved to Neenah to accept the field management of the society. He was elected supreme trustee in February, 1922.

Mr. Williams has been Wisconsin state president of the E. F. U. and has also held a similar office with the Loyal Order of Moose. For many years he was with the Gisholt Machine Co. and Democrat Publishing Co. of Madison as sales manager.

Dr. Thompson is one of the nine incorporators of the Equitable Fraternal Union, and a member for 23 years. During that period he has been active in the local assembly, has been general superintendent, a supreme trustee, and treasurer, and has followed the trend of the times in linking the two offices, where the duties of each readily and naturally converge.

Officers of the Women's Benefit association surprised Miss Velma Miller at a miscellaneous shower at the home of Mrs. Charles McGregor, W. Columbia-ave.

Miss Anna Gramm entertained the D. C. club Monday evening at her home on E. Wisconsin-ave for Miss Hulda Jersild who is soon to marry Edwin Kalfahs. The evening was spent in playing bridge. Prizes were won by Miss Florence Wright and Miss Jessie Gardner.

Mr. and Mrs. Carl Breaker and Mr. and Mrs. Gus Werth and daughter have returned from a visit with relatives in Wittenberg.

Miss Lucille Haas who has been spending her vacation in Peshtigo has returned to resume her studies at Neenah high school.

The Rev. R. A. Heron of Lawrence, Mass., who has been spending the last month in Neenah, has returned to his home.

Horace Dubois of Niagara, is spending a few days with his parents, Dr. and Mrs. A. J. Dubois.

Miss Margaret Fahrenkrug has gone to Milwaukee where she will have charge of the Gallatone exhibit at the Wisconsin State fair.

Among those who had their tonsils removed at Theda Clark hospital Tuesday were Mary Ann Buck, Ella Klumbeck, Walter Bearshaw, Ester Kieglas, Neenah; and John Schneider and Emily Pontow, Menasha. Those submitting to operations for appendicitis were Louis Merkeley, Margaret Selms and Dennis Topp, Neenah.

Frank Nelson, Soo Line employee, and Dan Kelly, Neenah entered the hospital for treatment.

Mrs. Jack Schaubert and daughter, returned home Tuesday from St. Elizabeth hospital.

The condition of H. L. Sherman who submitted to an operation for appendicitis at St. Elizabeth hospital Sunday was improved Tuesday.

POSTPONE WEEKLY
DRILL OF GUARDS

The regular drill of Co. D, 120th Infantry, Wisconsin national guard, scheduled for Monday evening at Armory G will be postponed until Tuesday, according to Capt. E. F. Grundeman. Members of the company will take part in a valley military unit drill at Neenah on Sunday, Sept. 26 and the marksmen are practicing for the event. The team to represent the local company will be chosen on Sunday, Sept. 13, Capt. Grundeman said. From that time until the meet team practices will be held by the picked men.

REGISTER VOTERS
Neenah—Registration was held at all the polling places Tuesday and were in charge of the inspectors of the various election boards. The polling places opened at 9 o'clock in the morning and will remain open until 8 o'clock in the evening.

Mr. and Mrs. Ted Miller and Mr. and Mrs. Joseph Schreier Sr. visited with relatives at Vilroqua, Sunday and at the Dells at Kilbourn, Monday.

DON'T NEED LAWS IF
PEOPLE USE SENSE

An educational campaign instituted by the police department, common sense and the use of ordinary discretion should make Appleton safe for pedestrians without the necessity of passing drastic ordinances prohibiting jay-walking and the crossing of streets against the traffic warning. Either a policeman on duty as traffic officer or automatic signals according to police opinion expressed Tuesday.

The police, Chief George T. Prim pointed out, have been industrious in their efforts to discourage persons from crossing heavy traffic street intersections with the "stop-go" against them or in wandering blithely into the path of automobiles from the middle of the block. However, there is no ordinance covering the subject here.

Danger of pedestrians stepping out into the street from parked cars has also been stressed, it was stated.

LENROOT INSISTS
SENATORS PROBE
CAMPAIGN COSTS

Wants LaFollette to Tell Who
Is Financing Progressive
Movement

Marshallfield—(P)—Senator Irvine L. Lenroot demanded in a speech here Monday night that Senator Robert M. La Follette, Jr., "go before the senate slush fund investigating committee and tell the source of upwards of thirty thousand dollars spent to distribute in Wisconsin a half million copies of a propaganda publication printed in Washington."

Senator Lenroot demanded that his colleague ask the committee to gather and begin an inquiry into the expenditure of money in the present campaign in Wisconsin.

He displayed a circular which he said was written on stationery of the United States senate committee on manufactures and signed by Senator La Follette, in which men and women in Wisconsin were asked to distribute the publication.

"There is a propaganda publication at Washington known as 'Labor' and 'The Progressive' said. A special Wisconsin edition has been published and hundreds of thousands of copies are being circulated in this state. I have been informed that the cost of printing and mailing of 500,000 copies is about \$30,000. The edition of this paper is filled with falsehoods as I have conclusively shown. Who is paying the bills for this? There is at least one man in Wisconsin who knows it is Senator Robert M. La Follette, Jr."

Senator Robert M. La Follette, Jr., knows the cost of this edition and who is paying the bills. The bills are paid outside of the state of Wisconsin. The so called Progressive profess to be the champions of purity in elections and declaim against large expenditures of money.

"A week ago I publicly requested Senator La Follette, Jr., to call his investigating committee to meet in Wisconsin and investigate campaign expenditures on both sides. I now demand that he do so, and that he himself testify before his own committee and tell all he knows about the cost of publishing and mailing this publication in Wisconsin and who is paying the bill. One state appointee has informed me that 1,000 copies were sent to him for distribution, and according to that the circulation in Wisconsin will amount to more than a million."

LEGAL NOTICES
IN THE DISTRICT COURT OF THE UNITED STATES for the Eastern District of Wisconsin.
In the matter of People's Drug Co. bankrupt. In bankruptcy.
To the creditors of People's Drug Co. of Kaukauna in the county of Outagamie and district aforesaid, a bankrupt.

Notice is hereby given that on the 30th day of Aug. A. D. 1926 the said People's Drug Co. was duly adjudicated bankrupt and that the first meeting of its creditors will be held at my office in the city of Appleton on the 6th day of Sept. A. D. 1926, at two o'clock in the afternoon at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

Proof of debts must conform to the provisions of Sec. 53 of the Bankruptcy Act and Rule 21 of the General Orders in Bankruptcy and in order to vote at meetings creditors must have their proofs properly made out and filed with the referee.

Appleton, Wis., August 31, 1926.

EKERN DEMANDS
REPEAL OF U. S.
RAILROAD LAW

Candidate for Governor Says
Esch-Cummins Law Guar-
antees Profit

Dale—(P)—Reiterating opposition to the Esch-Cummins law, Attorney General Herman L. Ekern asserted in a speech Tuesday that supporters of the transportation law are "distorting" facts when they asserted profits were not guaranteed at the present time.

"While the 6 per cent guarantee ceased after six months," Mr. Ekern declared, "nevertheless a 5 per cent guarantee went into effect immediately thereafter and will remain in operation until the law is amended or repealed."

"This was the view taken by western railroads recently in their demand that freight rates be increased 5 per cent in order to obtain returns they claimed they were entitled to under the Esch-Cummins act. The guarantee was denied by the Interstate Commerce commission. The fact that the guarantee is in the law cannot be fairly disputed. Senator La Follette charged it when he opposed the enactment of the Esch-Cummins law. The railroads now insist upon this 5 per cent guarantee as a basis of their rates."

"In a statement by the Northwestern, Burlington, Soo, St. Paul, and 70 other railroads they say:
Based on the volume of tonnage and earnings in 1924 an increase of approximately 11 per cent would be necessary in current freight rates in Western Territory to insure the net income of 5 per cent. Legally the carriers are entitled

VANITY CASE

by Carolyn Wells

© 1926 by G.P. PUTNAM SONS

BEGIN HERE TODAY
MRS. PRENTISS sees lights mysteriously appear and disappear in the HEATH household next door one night, and the next day Harbor Gardens, Long Island, is agog with the murder of MYRA HEATH and the disappearance of her husband, PERRY.

House guests of the Heaths are LAWRENCE INMAN, heir to Myra's fortune, and BUNNY MOORE, vivacious, golden-haired, to whom suspicion points because of her refusal to answer questions.

Myra Heath was peculiar. She never used cosmetics, never wore colors. She had a mania for collecting glass, and it was a rare old whisky bottle from her collection that the murderer used to kill her. Candles were burning at her head and feet, and nearby was a card marked, "The Work of Perry Heath." Strangest of all, she was heavily made up and garbed in gay colors.

The peculiar thing about Heath's disappearance is that all the windows and doors had been locked on the inside the night before and were found that way in the morning. Finger prints of Bunny Moore and Inman were found on the bottle.

At the Country Club the murder is discussed by SAM ANDERSON, Heath's rival for the club presidency; AL CUNNINGHAM, who is trying to solve the case, and others. Some believe Heath the murderer. Anderson disagrees. TODD HUNTER BUCK, nephew of Mrs. Prentiss and in love with Bunny, suggests to Cunningham that Heath also may have been murdered.

EMMA, a waitress in the Heath home, tells of seeing Bunny ascend the stairs about the time of the murder, carrying her vanity case. Later Bunny is amazed to get a phone call from Perry Heath advising her to keep silent.

Detective Mott learns from HERRICK, the Heath butler, that Myra and Perry Heath had quarreled over Bunny the night of the murder.

NOW GO ON WITH THE STORY

CHAPTER XXV
While the confab was going on in the Heath studio, Mrs. Prentiss was sitting at her window, wondering whether to go over to the Heaths' house or not.

Her curiosity was as strong as usual and her inclination was to go, but a strange sense of caution held her back.

She felt, intuitively, that she could do good over there and might do harm. Moreover, she could have a report of what had transpired, when her nephew and her guest reappeared, and so Mrs. Prentiss sat waiting and thinking.

The telephone rang, and Mrs. Prentiss answered it herself. This was her custom, for her quick curiosity never could wait for the intervention of a servant's offices.

A man's voice said, "May I speak to Miss Moore, please?"

"Who is calling?" Mrs. Prentiss responded, in a tone which she endeavored to make sound like that of a servant.

"No matter. Merely ask Mrs. Moore to come to the telephone. This is important."

The voice was cold, dictatorial and impatient. Clearly, the speaker was in a temper.

Now, Mrs. Prentiss did not know Perry Heath well, but her ever-present intuition hinted to her that it might be she was listening to his voice.

It didn't sound exactly like Heath, but some voices are different on the telephone, and she couldn't be sure.

Taking a chance, she said, still in the deferential tone of a servant: "Is this Mr. Heath? Miss Bunny said she would not speak on the telephone to anyone else."

Mrs. Prentiss heard the astonished gasp at the other end of the line, and grinned with satisfaction.

But the reply came: "Heath? No, this is Jackson. Please tell Miss Moore I must speak with her. You may say I have important news for her."

Suddenly Emily Prentiss felt that she was overstepping the bounds of propriety. She was a gentlewoman, not a detective, and she had no right to intercept or eavesdrop upon a private communication.

So she said simply, "Miss Moore is next door at the Heath house. If you wish, you can call her there."

"Thank you," was the response, and without further goodby, the voice ceased.

The advice, however, was followed, for a few moments later the telephone bell rang in the Heath studio.

Inman reached for the receiver, but Mott was too quick for him.

Grasping it first, the detective said, briskly: "Hello!"

"Hello," said a man's voice. "I want to speak to Miss Moore, and make it snappy!"

Though not very quick-witted, Mott was ingenious, and endeavoring to sound like Herrick, he said: "Miss Moore ain't here, sir."

"Yes, I'm," cried Bunny, so loud that her voice carried over the wire as she sprang toward the instrument, and tried to wrest it from Mott's grasp.

And so agile and lithe were the girl's hands, and she succeeded, and in a moment, she was listening to Heath's voice.

"For Heaven's sake, Bunny, you are up against it! Now, listen. I have to speak fast. You flee Emma, send her away off so she can't testify against you. Got rid of Herrick, too, if you can. Those two are in cahoots, and they saw us on the terrace. By the way, there was a lot of money in the desk drawer. I'll bet Herrick has stolen that. If so, it'll give you a hold over him. You play innocent baby, and sneak home as spy as you can. I'm not coming back—not at all—that!"

"Yes," Bunny said, faintly.

She helplessly dropped the receiver, and buried her face in her hands, while the great sobs came in her throat.

Mott grasped the receiver, but his "hello" was answered only by a mocking laugh, and a jeering good-bye.

"That was Heath," he said, with conviction.

Mott called Central, and immediately had an investigation ordered that must result in knowledge of where the telephone message came from, at any rate.

Then, the detective turned to Bunny.

"You know where Perry Heath is?" he said, accusingly, and the sound of his stern accents, roused the girl from her crying spell.

"I do not!" she declared, and faced him with angry eyes. "See here, Mr. Mott, I'm tired of your prying into my affairs, of your innuendoes

and questions. Now if you suspect me of a hand in my friend's death, then I'd rather you'd say so straight out, and stop this beating around the bush."

"All right, I will, Miss Moore. As you asked me to do, I am speaking straightforwardly. The time has passed for mincing matters. To my mind, the death of Mrs. Heath must have been brought about by one of three persons, her husband or one of her two house guests. Her husband is out of the question, because it was impossible for him to get out of the house and leave it locked and bolted behind him. Also, Mr. Inman is not a likely suspect, because he was in love with the lady."

"I am told that Mr. Inman's affection for Mrs. Heath was known not only to her husband and household, but to most of her friends and acquaintances. Now, even granting that he would be inheritor of her estate, Mr. Inman is not going to kill the woman he loves. Then, where can we look for the murderer but to her girl friend, the visitor of Mrs. Heath, who is, incidentally, in love with Mrs. Heath's husband, and will doubtless some day marry him?"

"What?" Bunny's face was deadly white and her eyes stared in horror and dismay.

"That's the way things look," said Mott. "Also, it must be remembered, that Mrs. Moore's finger-prints are on the broken bottle which was used as the weapon of death."

"Mine are there, too, I am told," exclaimed Larry Inman.

"Yes, but yours are over those of Miss Moore — superimposed upon hers. This, as you can't help seeing, proves that the bottle was first used by Miss Moore, as a deadly weapon, and afterward picked up or examined by Mr. Inman. Perhaps he was present at the time, and wrested it from Miss Moore's hand, thus leaving his prints above her own. Now, the matter of the vanity case. It has been proved, to the satisfaction of the police, that the make-up on Mrs. Heath's face was applied after she was dead, and also that the materials used are the same as those in Miss Moore's vanity case. It is further assumed, though of course this cannot be a matter of actual proof, that the color was applied by either a woman or an artist. Had an intruder, such as a burglar or midnight marauder, committed this crime, he would not, probably could not, have applied that make-up with such a degree of skill and artistic taste. But an artist could do it, or — a woman could do it! Miss Moore, did you apply the cosmetics to Mrs. Heath's dead face?"

Mott intended this as a bold stroke. He turned suddenly and faced Bunny with his question, spoken in a brutal, threatening tone, and accompanied by a stern, accusing glare.

Bunny turned white, attempted to speak, then swayed in her seat, and toppled over sideways.

APPLETON PAYS AVERAGE SALARY

Only 24 Cities in Wisconsin Pay Police Chiefs Over \$2,000

Appleton is one of 24 cities in Wisconsin to pay its police chief more than \$2,000 per year, according to the 1926 report of municipal officers' salaries, compiled by the municipal information bureau of the University of Wisconsin Extension division. The salary paid to Appleton's chief is \$2,340.

Last year only 21 cities paid more than \$2,000 to their police chiefs. Practically every city in the \$2,000

Conway Tearle and Anna Q. Nilsson in "The Greater Glory"

AT THE ELITE TODAY AND TOMORROW.

let has increased its police head salary, and none have been decreased, according to the report. Milwaukee's police chief is the highest paid on the list, with a salary of \$6,000. Montreal's chief receives the lowest salary, \$25. Of the others of the cities of Wisconsin, 26 pay less than \$1,000 annual salary, six report no salary at all and the average salary in the remaining 137 cities is \$1,442 per year. Cities which pay more than \$2,000 annual salary to chiefs of police are: Ashland, Wisconsin Rapids, \$3,100;

Beloit, \$2,820; Oshkosh, Cudahy, Eau Claire, Fond du Lac, Janesville, \$2,400; Green Bay \$2,550; Kenosha, Superior, \$3,000; La Crosse, \$2,330; Madison, Racine, \$3,300; Manitowish, \$2,200; Milwaukee, \$5,000; Monroe, Watertown, \$2,000; Sreborgyan, \$2,500; South Milwaukee, \$2,700; Waukesha, \$2,260; Wauwatosa, \$2,454; West Allis, \$2,850.

EXPRESS TRAIN CARRIES CATTLE TO NEW HOMES

Carload of Outagamie-co Purebreds Shipped to Eastern Farms

A group of 29, categorically listed to the well advertised weaker sex, left Appleton on Saturday for Stewartsville, N. J., traveling deluxe, in a specially chartered express car.

A number of the group were mothers accompanied by bawling infants.

The fame of Outagamie-co has spread to the eastern coastal dairy sections, the trip reveals.

The trip is believed to represent the first time in the county's history that several tons of highbred cattle have been consigned by express.

Arriving in the vicinity about a week ago, Philip Terrell, Stewartsville, started quietly buying high grade milk cows, about to freshen. One was purchased here and another there, never more than two in one deal, until Mr. Terrell had acquired the 29 head.

Although no particular effort was made to procure pedigreed stock Mr. Terrell, nevertheless, confined his purchases to high grade animals. It is estimated that considerably more than \$4,000 was represented in the total spent, according to Dr. William Madison, veterinary surgeon.

"The cost of shipping probably will be approximately \$500 all told, but Mr. Terrell declared the elimination of de-

LAWYER GETS HERE TOO LATE TO AID BANDITS

An Appleton hotel and the railroad company were the only ones to benefit when an attorney from Minneapolis arrived here to take charge of the defense of John McFarland and James "Blackie" Lynch, who were sentenced to from 3 to 15 years in Waupun after pleading guilty to bank robbery before Judge Theodore Berg in municipal court last Friday.

Mr. Ossanna, girded for legal battle, arrived for a conference with

Sheriff Peter G. Schwartz on Saturday.

The sheriff averred that he would put no obstacles in the way of the Minneapolis barrister seeing his clients—except that in Outagamie-co when bank bandits are sentenced they are taken to prison.

However, the sheriff called Waupun for Mr. Ossanna.

"Would it be possible for me to see the prisoners?" he queried.

"Nope," replied Warden Oscar Lee. Finis.

FISHER DESIGN SETS THE PACE

The pace set by Fisher—and exemplified in the beautiful new General Motors cars now commanding public attention—is the guide for the entire motor industry.

Fisher's vast experience, Fisher inventiveness and Fisher's unapproached facilities devise and perfect the beauties, comforts and conveniences which attract you to the leading new cars in all price classes—Cadillac, Buick, Chevrolet, Oakland, Oldsmobile and Pontiac.

For instance, Fisher achieves a new degree of safety—and nothing less than a Body by Fisher can approach

it even after seasons of striving.

Fisher leads the way in luxurious fittings and decorations—and all the industry follows.

Fisher creates new standards of beauty in line and finish—and those standards are the measure of value for all of the world's cars.

It is easy to see, therefore, why the foremost of the new cars in all price classes carry the emblem—Body by Fisher.

And easy to understand why buyers the world over proclaim as the hallmark of quality that same magic symbol—Body by Fisher.

CLASS OF AMERICAN PROS PLAY HERE SATURDAY

Sir Walter Has Captured A Dozen Major Titles In Last Five Years Of Play

Watrous, Second in British Open, Noted as One of World's Best Stylists

An opportunity to see the world's greatest golfers in action, rare in any city the size of Appleton, is offered local golfers Saturday when Walter Hagen, winner of more than a dozen major titles in the last five years and Al Watrous, another premier linksmen and one of the greatest stylists, appear on the Butte des Morts course for a match with Frank Walsh, Butte des Morts pro, and Ken Dickinson, former state and present northeastern Wisconsin champ.

In the last few years Hagen has been British open title twice, American open, twice, Western open, three times, Professional Golf association champ, four times and has won dozens of minor titles. Recently Abe Mitchell, England's top champion, challenged Hagen to a battle for the world's pro title. 12 holes to be played in England for a purse of 25,000 pounds. Mitchell took an early lead and with 18 holes to go was four up on Sir Walter. Here Hagen took the next five holes in a row and continued to win holes until he had given his opponent an unmerciful drubbing. All this after trailing for 35 holes. This feat led the English golfers to give him the title of "world's greatest" and exclaim with wonder at his play.

When he won the Western open Saturday by breaking course records, he pulled off another one of his own brand of finishes after trailing. He had to make a certain score so he made it. Harry Cooper had just turned in a 69 record-breaking count and was sitting in the clubhouse. Some fan rushed in and told him that Hagen was coming in with a 31 for the last nine holes. Cooper rose to his feet in disgust, exclaiming, "What the hell does it take to beat that guy?"

Recently Hagen whipped Bobby Jones on Jones' own course in Florida by a large score.

In bringing Al Watrous here, club officials considered the fact that the local club is a new one and that the members are trying to learn the game, and learn it right. While Joe Kirkwood and several other pros are probably as good golfers in medal or match play as Watrous, "Michigan Al" with McDonald Smith, Jr. recognized as the world's greatest "golf" stylist. Every stroke is correct form in every detail, and it is a joy to watch his swings. He has Michigan open medal for so many years the average fan cannot remember the name of the winner of the medal. He will meet the very large meet he has entered and runner-up to Bobby Jones in the British open this year. The way the lead alternated between the Michigan linksmen and the Atlanta led until Bobby won by taking the final stroke at the very end, is a story in itself.

Hagen is playing in the Chicago district meet in which Walsh is entered at Chicago this week and Watrous is after another Michigan open title.

CELLAR CREW BEATS LEADERS IN K-C LOOP

Kimberly—The Clubhouse Boosters, cellar champions, trounced the league leading Wrinkles Rounders in a tight game Monday evening in the Kimberly Twilight Softball loop by a 10-3 score.

The Rounders started the scoring in the first inning getting one run and the Boosters tied the score in the second. In the third the Boosters got a run and took the lead which was overcome in the fourth when the Rounders brought in a run. The Boosters took the lead again in the sixth inning when they scored four runs to the Rounders two. The Rounders came back with two runs in the eighth and tied the score, but lost the game in the ninth inning when the Boosters scored four runs to the Rounders three.

Jansen and Vaulter Velden got a hit and two runs apiece for the Boosters. Williams got a two bagger and a single and brought in two runs and Dohr got a three bagger and a single for the Rounders.

The Rounders outdid the Boosters getting thirteen hits off Sandhofer, while the Boosters only cranked seven safeties off Dohr's delivery. The Rounders had four errors counted up against them and the Boosters three.

HELPFUL HINTS TO GOLFING STARS

CECIL LEITCH—CONFIDENCE IN PUTTING
There are women players who go up to the ball and putt without any hesitancy. The results are so good at times that it makes the ordinary mortal wonder whether she ought to adopt a similar casual manner, but in the long run a strong combination of determination and concentration on the green will reap its reward. Speaking of my own experiences I am convinced that my mind is not on the task in hand half the time. I am endowed with a particularly keen sense of hearing and, when playing before a crowd, I constantly find myself listening to whispered remarks when I should be concentrating to an extent which would make this eaves-dropping impossible.

I am constantly asked why I do not learn to putt, but few people realize how difficult it is to practice this part of the game. To my mind there is nothing simpler than to put a ball into a hole, but it is not so simple as it appears. It is a very different story in an important event, for then the yard put is doubly difficult and the long approach puts become terrifying.

CARDS, PIRATES SPLIT CRUCIAL DOUBLE HEADER

Retain Positions in N. L. Race, but Cincy Wins to Profit by Result

A fight to oust Pittsburgh from first place in the National League, waged hotly for two days in the St. Louis ball yard, so far has been a no-decision contest.

Cardinals fans, storming the park in the hope of seeing St. Louis climb over the Pirates from third place to their first pennant in 37 years of National League history have seen three white-hot battles but no change in the team positions.

Cincinnati alone has drawn benefit from the warfare and now stands in second place only four points behind Pittsburgh. The Cardinals are a full game back of the Pirates.

Sunday the Pirates invaded the west for the five vital contests with St. Louis and at the end of ten muddy rounds were obliged to accept a 2-2 tie. Monday they met in a double contest and at the end of the day each sported a victory.

In the first game Kremer held the Cards to two hits for a 3 to 0 shutout. St. Louis took the second, 5 to 3.

St. Louis injected his war club into the struggle long enough to give Haines the hurling verdict over Bush. His single scored Doubtless who had doubled in the second, while his torpid wallow in the eighth completed a margin of victory.

The Reds kept on their upward way, knocking the Chicago winning streak of eight games in the head with a 3-2 conquest. Cincinnati got eight hits to the Cubs nine, but Pete Donahue hurled one of his great games in the pinches after six losses in a row.

Mueller, with the aid of the Giants plastered Brooklyn, 3 to 2. His two homers accounted for four New York runs.

Carlson, slim Philadelphia right-hander, blanked the Boston Braves 5 to 0. Leach had a perfect day at bat with four hits. The Yankees tripped before the Washington Senators, 12 to 6, and saw their lead in the American shrivel to six and a half games. Chicago took Detroit, 5 to 2.

In a brilliant fielding duel, Gibson could not hold a two run lead handed him in the first inning.

In the only American Association game played Monday Toledo took the game from Columbus, 3-1.

FREEDOM CLINGS TO LEAGUE LEAD

Three Squads Have Chance at Banner With One Game Left

Freedom clung to its slight lead in the Intercounty Baseball loop Sunday by a 11-3 win over the second place Wrightstown crew, topping that squad to fourth place in the circuit standings and out of the race for the 1926 flag. Combined Locks and De Pere held to the trail of the Freedomites by whipping Oneida and Little Chute, respectively. The Locksmen won 6-3 and the Depere boys triumphed 7-5.

The Freedom Wrightstown tilt was the most important as the Wrightstown boys with two other squads were in second, a game from the top. A win for Wrightstown would have tied that crew and possibly two others with Freedom. With but a week to go, causing at least a double and possibly a triple tie when the race was up. Now Wrightstown can only tie for second by a win Sunday.

Kilster and Kussow formed the losing battery and Tornow and Schomer worked for the loop leaders, at De Pere. Lardons and Anderson toiled for the winners while Poca, Vanderstern and Brockhouse worked the battery points for Little Chute. Stegeman and Dix were the winning battery for the Locksmen with Swamp and Skennadore working for the Indians. The Locksmen got five hits and the Indians five. Stegeman walked four and fanned five and his mates made five errors, none costly. Swamp hit a batter and fanned eight while his mates made one error. The Locksmen took a 6-0 lead with one in the first and fourth and two in the sixth and eighth. Then they took it easy to allow two Oneida scores in the seventh and another in the ninth.

The big battle Sunday brings Freedom to De Pere to battle the second place crew. Freedom must win to clinch the banner. A loss will mean a tie for the flag between Freedom and De Pere and possibly Combined Locks should that crew beat Oneida, which it is favored to do. A double or triple tie would cause a playoff for

Badger Cagers May Meet Second Eastern Quintet

Madison—Wisconsin University's basketball team will engage another eastern five this winter in addition to Syracuse University if the present plans of Coach Walter Meanwell and Business Manager Lewis materialize. An effort is being made to bring a strong quintette west to meet the Badgers in Milwaukee during the Christmas holidays.

Letters have been dispatched to Princeton, Cornell, Yale, Columbia, Pennsylvania and Dartmouth, and it is practically a certainty that one of these will accept the terms offered. The contest will be staged in Milwaukee's largest auditorium, a definite date to be announced later.

Should the Badger schedule carry two Eastern games, an engagement with Notre Dame, twelve conference tilts and one with a strong minor college it will be the most attractive slate ever played by a Wisconsin five. The proposed Milwaukee intersection battle would also afford the alumni and public of the state an opportunity to see Meanwell's team in action against a headline outfit, where in the past Basketball had been almost a close proposition due to the limited seating capacity in the University Gym at Madison.

WINNING SMILE

America's most colorful golfer is the title bestowed on Walter Hagen, who broke a few records as if it were merely all part of a day's work, to take the western open title at Indianapolis last week by a goodly margin over the world's best. Sir Walter, who plays over the Butte des Morts course here Saturday, has won at least a dozen major titles in the last few years, besides dozens of minor meets. Nothing bothers him while he is playing and his actions on the course delight the fans.

Hagen played here last year and was delighted with the local course. This year he will be in a match with Al Watrous, another star of the world's links, Frank Walsh and Ken Dickinson. The foursome is being put on to show Appleton golfers the best in the line at a large expense. Local golf enthusiasts are expected to back up the club in putting over such an attraction.

TRIANGLES TRIP INTERLAKE, 10-9

Y Crew Holds Lead on 2nd Place in Game Decided in Last Frame

STANDINGS	W.	L.	Pct.
American Legion	12	3	.800
Y. M. C. A.	9	5	.643
Post-Crescent	7	6	.538
Bankers	5	9	.357
Meyer Press	5	10	.333
Interlake	5	10	.333

WEEK GAMES

Wednesday—Bankers vs Post-Crescent.

Friday—Post-Crescent vs Y. M. C. A.

The Y. M. C. A. softball team loafed through a game with the Interlakes Monday afternoon at Jones park and just about held its lead in the second place, winning out 10-9, to send the losers into a cellar tie once more. The Interlakes took a 4-0 lead in the first two frames and but soon the losers pulled up. It was that way the entire game, the Y crew taking a lead and then letting down until the Interlakes caught up. Then they played real ball and they sure had to, to squeeze out a one-run margin. Bleier and Voeks formed the winning battery with LeRoux and Brandenberg play the important points for the losers.

The Post-Crescent crew must beat the Bankers Wednesday night for a chance at second place Friday. A win over the Bankers followed by a win over the Triangles will mean a tie for second, while a Triangle win Friday, its first over the P-C men this year, will give it a lone hold on the place.

LARGE ENTRY LIST IN RIVER REGATTA

Philadelphia—(AP)—More than eighty entries have been received for the middle states regatta to be held on the Schuylkill river Labor day. The number sets a new record. Crews from all parts of the east will compete including combinations from Baltimore, Washington, New York and Canadian cities.

The leadership, however, a Freedom win will take care of everything. Oneida has the cellar job clinched and can only pull the Locksmen down by a loss. Wrightstown invades Little Chute with a chance to tie for second or third by a win while the Chuters can tie for fourth with Wrightstown by a victory. Three teams still are in the battle for the pennant.

Jack Dempsey's Hardest Fight Came From Johnny Sudenberg Back In 1915

Westerner Sent Present Champ to Canvas Seven Times in First Round

This is the first of a series of 10 articles called TEN ROUNDS WITH DEMPSEY dealing with interesting facts and inside stuff taken from the pugilistic career of the famous champion. The series has been written by Joe Williams, famous fistic critic of NEA Service, Inc., an intimate friend of Dempsey's and a boxing authority of prominence. An article of this timely series will appear daily on the sports page.

BY JOE WILLIAMS
Any young journalist on interviewing a heavyweight champion, whether in or out of season, is bound by the rules of his craft to ask this question: "And my dear man, tell me who gave you your hardest fight?"

And if the heavyweight champion is gifted with the same amount of originality that one customarily finds in heavyweight champions, the inevitable answer will be: "Hellsbells! All of 'em were my hardest fights." This to be followed promptly by a hoarse, abdominal roar indicating that the heavyweight champion has pulled what you might call a bluff.

Jack Dempsey's answer started but to be like all the others and then hit an interesting detour.

"Of course, there was that fellow Johnny Sudenberg. I suppose you'd say he gave me a pretty hard fight."

Now Johnny Sudenberg may be little more than a new species of after-dinner mint or merely something that is used in the dark provinces to create rain artificially for all the average follower of the fight game knows, but he is a very unpleasant memory in the life of the heavyweight champion.

"Yes, sir, I suppose you'd say Johnny gave me a pretty hard fight," added Dempsey. I fought him back in 1915. I was pretty much of a hick in those days. I didn't even know anything about fighting, and that's how saying I didn't know anything.

"Out west of the Mississippi Johnny was looked on as a mighty good prospect with his dukes and there was talk about getting him ready to take on Jess Willard and Frank Moran and the top-notchers. I don't remember exactly how I came to get matched with him, unless I was broke, which I usually was.

"Anyway I was matched with him and when the bell gonged I shot from my corner with both hands pulled back ready to let 'em go as soon as I saw an opening. I wasn't much harder to hit those days than the left side of a dirigible.

"Before I got a chance to let a punch fly I was down on all fours studying the white weaving of the canvas and listening to the official statistician count. I got up at 'nine' and was knocked right back. I got up again and once more was flattened. 'Johnny kept hitting me and I kept going down and getting up until the customers must have imagined we were playing some new sort of game. The papers the next day said I had been knocked down seven times in the first round. But I can remember being down at least nine times myself."

Dempsey recalls that the next three rounds did not differ much from the first. Sudenberg was in there swinging and Dempsey was in there falling.

Along about the fifth round Sudenberg's strength left him. He had fought himself out trying to keep Dempsey on the floor. Then Dempsey began to get his second wind. To say nothing of a sense of balance and a comparatively calm perspective.

From the fifth on he tore into Sudenberg with the same primitive savagery that he brings to his present-day fights and, while he was unable to register a knockout or even square the balance in knockdowns, he did get the decision.

"I took more punishment in that fight than in any fight I ever had," Dempsey declares.

"Including the one with Firpo?" I asked.

"Including Firpo. Willard and Carpenter all put together," he insisted.

Chicago—(AP)—Jack Malone, Chicago, beat Young Fisher, Syracuse, N. Y. (10).

Frankie Welch, Chicago, beat Leo Wax, Australia (6).

Winds are produced by differences in atmospheric pressure in various locations.

"Including the one with Firpo?" I asked.

"Including Firpo. Willard and Carpenter all put together," he insisted.

Badger Cagers May Meet Second Eastern Quintet

Madison—Wisconsin University's basketball team will engage another eastern five this winter in addition to Syracuse University if the present plans of Coach Walter Meanwell and Business Manager Lewis materialize. An effort is being made to bring a strong quintette west to meet the Badgers in Milwaukee during the Christmas holidays.

Letters have been dispatched to Princeton, Cornell, Yale, Columbia, Pennsylvania and Dartmouth, and it is practically a certainty that one of these will accept the terms offered. The contest will be staged in Milwaukee's largest auditorium, a definite date to be announced later.

Should the Badger schedule carry two Eastern games, an engagement with Notre Dame, twelve conference tilts and one with a strong minor college it will be the most attractive slate ever played by a Wisconsin five. The proposed Milwaukee intersection battle would also afford the alumni and public of the state an opportunity to see Meanwell's team in action against a headline outfit, where in the past Basketball had been almost a close proposition due to the limited seating capacity in the University Gym at Madison.

STAGING GREAT RACE IN DOUBLE "A" LOOP

Louisville—It's a great race they are staging in the American Association this year; in fact, a direct contrast to that of a year ago when Louisville won the pennant by one of the biggest margins in the history of the circuit.

Louisville is again in the center, but the Colonels are not alone this time. Right in the fight are the Milwaukee Brewers and Donie Bush's Indianapolis Hoosiers.

Each of these three clubs have a chance for the 1926 flag, with Louisville and Milwaukee standing out as the two best bets. Of course, you can always figure on the foxy Bush to put up a good battle, but at this distance the Hoosiers don't look quite as formidable as their two rivals.

Newark, N. J.—Russell Leroy, Fargo, N. D., outpointed Al Conway, Philadelphia (10).

Joe Woods, Chicago, beat Jack Williams, Denver, (6).

EADS BEATS KOTAL IN "Y" TENNIS TOURNEY

Harold Eads went into the semi-finals of the annual Y. M. C. A. tennis tournament and championships Monday, when he defeated Eddie Kotal. Kotal, a former pro, had no trouble in the first set but Eads forced him to play hard to take the second. Eads will meet Clem Lacka in semi-final match. Dr. R. V. Landis is a third semi-finalist and he will meet the winner of the Herman Gottlieb-Alva Carter second round match in the other semi play.

Each of these three clubs have a chance for the 1926 flag, with Louisville and Milwaukee standing out as the two best bets. Of course, you can always figure on the foxy Bush to put up a good battle, but at this distance the Hoosiers don't look quite as formidable as their two rivals.

Newark, N. J.—Russell Leroy, Fargo, N. D., outpointed Al Conway, Philadelphia (10).

Joe Woods, Chicago, beat Jack Williams, Denver, (6).

SEPTEMBER LAST MONTH TO TAKE P-C GOLF PRIZE

Golfers Who Have Not Tried to Lower Handicaps Before Have Best Chance

The final and best chance to win the valuable prizes offered by the Appleton Post-Crescent to golfers of the Butte des Morts and Riverview country clubs will start Wednesday morning, Sept. 1, when the handicap tourney for September gets underway. The Post-Crescent offers two prizes for golfers who reduce their handicaps the most in the month, scores being determined by club committees on three low scores turned in. Men who have not tried seriously all year to reduce their handicaps now have the big opportunity to cop the prizes. They have a big advantage over the man who has been pecking away and lowering his mark slightly each month until it is so well down he has trouble reducing it further.

Prizes for August to be awarded within ten days, show what the golfer can acquire by merely playing his usual rounds, and turning in the scores. Winners for August will receive a pair of golf shoes for first and a pair of golf socks for second, real prizes for a golfer. Other prizes given for previous months have been golf balls, bags, clubs and lessons by the club pro. Even better and more expensive prizes are slated for September's winners. And remember the man who hasn't yet tried to lower his handicap is the man best in line for the prizes. Get started early and play plenty so that the low scores will be plenty, then turn in the three lows.

How They Stand

REAL ESTATE FOR SALE

HOMES —

3100—New six room home on N. Appleton St. Garage. Lot 50x160.

3600—Duplex two blocks from Pierce Park. Five rooms each all modern.

3500—New five room bungalow. One block from College Ave. All modern. Garage.

VETS DISCUSS WAYS TO FINANCE THEIR COTTAGE

More than 45 members of the Appleton Chapter of the Rainbow Division attended a strictly business meeting of the organization in the armory Monday night. It was reported by County Clerk John E. Hantschel.

Discussion of ways and means to finance the "Rainbow Cottage" to build on lots owned by the organization was the main feature of the session, it was stated. The chapter, it was pointed out, owns property at the lake on which to erect the building and already more than \$530 has been pledged by members. A considerable share of this amount has already been paid in.

Whether to mortgage the land for building operations or try and devise other means of supplying funds was not definitely decided.

It is expected that a building such as contemplated can be built for approximately \$1,000. Mr. Hantschel said.

Capt. Allan B. Ellis, Wisconsin National Guard, stationed at Camp Douglas, gave an informal talk. The captain was at the armory on National guard routine business and merely dropped in at the meeting to say hello to his buddies.

THREE INJURED IN AUTO CRASH ON HIGHWAY 18

Woman 74 Years of Age Is Cut and Bruised in Headon Collision

Three persons, one a woman 74 years of age, were slightly injured, and an Oldsmobile sedan was badly damaged in a headon collision at the intersection of the Hortonville road and highway 18 about three miles west of Appleton at 5 o'clock Sunday afternoon.

The injured: Mrs. Carrie Looker, 74, Waupaca, stock and cuts on her left leg. Mrs. J. Emmons of Ironton, Wis., bruises about the body and shock. Margaret Kratz, 11, daughter of William Kratz of Waupaca, cut on right hip.

The injured people all were passengers in the Oldsmobile sedan of Mr. Kratz, who was driving the car. Another daughter of the driver, Mariam, 13, was a fifth passenger, but she as well as her father escaped injury.

Mr. Kratz and his companions were returning to Waupaca from Sheboygan when they collided with a Buick sedan on highway 18. The impact of the collision threw Mrs. Looker and Mrs. Emmons against the front seat, and flying glass from the broken windshield cut them and Margaret Kratz.

The injured persons were taken to St. Elizabeth hospital by A. W. Zwicky, a passing motorist, who then returned to the scene of the accident and took Mr. Kratz and his daughter on to Waupaca. Mrs. Looker and Mrs. Emmons, after receiving medical aid at the hospital, spent the night at the home of Mr. and Mrs. Walter Clifford, relatives of the injured persons.

The identity of the driver of the Buick car was not learned. None of the passengers in that machine were injured.

VOTERS DECIDE TO BUILD NEW SCHOOL

Although there is considerable routine to be accomplished, school district number 10, town of Grand Chute, will have a new building to replace the present condemned structure it was finally decided at a meeting of the voters of the district Monday night.

Plans tentatively agreed upon must be submitted to County Superintendent A. G. Meating and the industrial commission for approval and then will come the actual letting of contracts. It was expected that the board would confer with Mr. Meating at his office soon.

The proposed building will be a one room structure and will probably cost in excess of \$5,000. Mr. Meating said.

SOUSA'S BAND HEADS YEAR'S ARTIST SERIES

World's Greatest Tenor One of Five Numbers in 1926-27 Program

Artists and ensemble organizations outstanding on the concert platform and known throughout the world will make up the program for the Community Artists series this season. The program is about the best ever brought to Appleton.

All attractions of the series will be new to Appleton people, except Sousa's band, which will give the first program of the series on Oct. 14. Lieutenant Commander John Phillip Sousa is conductor of the band and is known throughout the world. His band is one of the best of its kind. The players have made tours many times across America, through Great Britain, and Continental Europe, Australia, and the Orient.

GREATEST TENOR

Tito Schipa, premier tenor of the Chicago Civic Opera Co., considered the world's greatest singer, will present the second program of the series on Oct. 28. Schipa is known throughout America as the tenor universally beloved. The Chicago Journal of Commerce said of him: "One can recall to mind only three singers able to arouse the enthusiasm manifested by last night's audience, and these are Mr. Schipa, Mme. Galli-Curci and John McCormack."

NOVELTY PROGRAM

The novelty of the season's program will be The English Singers of London, who will appear on Feb. 21. The organization will give a humorous program and will sing its entire program in English. They are known for their ability to hold the audience spellbound during the entire concert. The English Singers have made appearances in Chicago, New York, Philadelphia, Pittsburgh, Detroit and at Harvard, Yale, Vassar, Peabody Institute, Michigan, Holyoke and numerous other famous institutions.

Leo Ornstein, composer-pianist and Henry Farman, violinist, will give a joint recital as the fourth of the series. They will present their program on March 4. W. J. Henderson in the New York Herald says of Leo Ornstein, "His mastery of tonal character through touch and pedaling is not surpassed by any other pianist known to this public." Henry Farman, violinist, is one of the Leopold Auer celebrities. His tone is of lovely quality and he plays with superb artistry and dazzling technique.

The New York Little Symphony orchestra, conducted by George Barrere, will close the program this year. The orchestra is the finest small orchestra in the world. It possesses all the qualities of a full symphony orchestra and at the same time a sweetness and subtle charm which is lost in the large orchestras. It will make its appearance in Appleton on March 25.

Season tickets for the Community Artist Series now are on sale. Mail orders should be sent to Community Artist Series, Lawrence Conservatory of Music, Appleton. Season tickets will sell at \$6, \$5 and \$4. Main floor tickets, center, will be sold for \$6; main floor, under balcony, \$4; balcony, first five rows rear and first two rows, right and left side, \$5 and balcony, remaining rows, \$4.

Small concert tickets on and after Oct. 1 will be sold at \$1, \$1.50 and \$2 each. No single tickets will be sold until the end of the season sale, however.

FATHER SEEKS TO HAVE SON PUT ON PROBATION

Willing to Pay Costs and Damages Resulting from Theft of Car

The case of Roscoe E. Baker, who pleaded guilty of stealing an automobile from F. J. Harwood last July, probably will come to a conclusion the latter part of this week. It was announced by Judge Theodore Berg on Tuesday.

Baker, who is only 22 years old, entered his plea a week ago but sentence was not passed as the judge wished to confer with the young man's father before determining a penalty.

The elder Baker, a former Appleton resident, now farming in the northern part of the state arrived here last Saturday. He has offered it is said, to make full restitution for costs accrued and any damages resulting to the Harwood car if his son can be put on probation.

Mr. Harwood is out of the city but is expected to return by Thursday.

District Attorney John A. Lonsdorf, prosecuting the case, said that his attitude in the matter would largely be determined by the father, who has conferred with Mr. Harwood, the father, young Baker and Judge Berg.

It is pointed out that this is Baker's first offense.

The car was recovered in Wichita, Kans., where Baker and a companion were arrested. They were enroute to Texas. The companion was released by police when he convinced them that he had no knowledge that the car had been stolen.

1,975 CHILDREN ARE EXPECTED IN CHURCH SCHOOLS

One Parochial School Opens Tomorrow, Others Next Tuesday

All Appleton parochial schools will open within the next week.

St. Joseph Catholic school will open Tuesday, Sept. 7. Registration at the school must be made on or before Wednesday, Sept. 1. A staff of 13 sisters of Notre Dame will have charge of more than 900 pupils expected. During the vacation a complete new water system was installed in the school buildings. The new equipment includes drinking fountains, wash basins, and lavatories.

St. Paul Lutheran school will open Tuesday, Sept. 7. Registration will be held in the morning of that day. Earnest Schulz, Appleton, is principal of the school and will be assisted by a staff of four teachers. A registration of approximately 225 pupils is expected.

About 40 pupils will start at St. Mathew Lutheran school on Tuesday, Sept. 7. Registration will be made the same day. Miss Ruth Koepel of Bangor will have charge of the school.

St. Mary Catholic school will open Tuesday, Sept. 7, with about 400 children in attendance. Registrations will be taken the day before the opening of school. A staff of nine Dominican sisters will have charge of the school.

Between 150 and 175 children will attend Zion Lutheran school, which opens Sept. 7. Registration will be held on the morning of the same day. Misses Dorothy and Clara Theiner and Eva Mellenbruch of Ebron, Neb., and Frieda Heuer of Hiawatha, Kan., are the teachers in charge of the classes.

Sacred Heart Catholic school will open Wednesday Sept. 1. Registration day was Tuesday, Aug. 31. Four sisters of the order of Notre Dame will have charge of the approximately 240 children.

BEAR CREEK GIRL IS ENTERTAINED AT SHOWER

Special to Post-Crescent
Bear Creek—Mesdames Fred Truax, John Staehr, Roy Spence, and Charlie Kiekhoefer entertained at a miscellaneous shower in honor of Miss Dolores Bechard of Bear Creek at the Kiekhoefer home. About forty persons were present. They were all dressed in old fashioned clothing. Mu-

WOMEN'S WESTERN CHAMP

MISS DOROTHY PAGE

Miss Dorothy Page, 17-year-old golden-haired lass of Madison, is the new women's western golf champion. She came into the honor the other day by defeating Mrs. O. S. Hill of Kansas City in the 30-hole final at Olympia Fields, Chicago, 3 and 2. Miss Page proved a sensation from the first day of the tournament and should rank with the topnotchers in national competition within the next few years.

sic and games furnished entertainment.

Prizes were won by Mrs. Charles Reinert, Mrs. Thomas Hutchison, Mrs. Elwood Hutchison, Mrs. Guy Hutchison, Mrs. Bob Hutchison, Mrs. Edward Freiburger. The bride to be, received many gifts. Miss Bechard is to be married Sept. 9, at New London.

THE VAGABOND'S PLEA

MAGISTRATE (to tramp charged with begging): Three days imprisonment on bread and water. Take him away!

TRAMP: Make the living a trifle richer, yer worship, and I'll stay a week.—Answers, London.

Kafir natives in Portuguese East Africa have orchestras composed solely of drums and xylophones.

Delivery Boys Have Easier Times Since Trucks Came In

Each year a horse-drawn delivery wagon is becoming more of an antique on Appleton streets. Merchants who used horses to deliver their goods a few years ago now hang their shingles on the side of a "digger" truck, and the faithful old dobbins which roamed the city streets in front of a load of groceries or an assortment of milk bottles are now classed as drawbacks to the general progress of civilization, and were sent to the farm or the soap factory.

A Fond du Lac man who attended the district dry-cleaners' convention in Chicago in 1924 remarked that he used two delivery vehicles in his business, one motorized and the other horse-drawn. "I keep the horse," he said, "because it's a novelty, and it attracts business to my institution!"

There are a few Appleton firms which use horse-drawn delivery wagons, but the majority keep them for the same reason as the Fond du Lac dry cleaner. There are a few industries however, where this is not the case, particularly with reference to bakeries and milk dealers, where stops at each house for blocks at a stretch are required, and where a horse can be trained to move from house to house without orders from the driver. A few other firms use trucks and horses, utilizing the former when speed is a necessity.

The cost of running a truck for delivery purposes, say Appleton dealers, is less than keeping a horse. Several dealers estimate that a light truck costs on an average of six cents per mile, including all over-head and running expenses. The change from horse

drawn wagons to trucks took place about 10 years ago.

Now, as before that time, a good horse costs about \$100. A rig costs about \$75, and a harness, between \$25 and \$50. A "digger" truck can be purchased at about \$200. The original cost, therefore, of the two "power plants" is just about the same, and merchants state that it is much cheaper to run a car than a horse, when the cost of feeding, pasture, care, and

a hundred and one other items for a horse are taken into consideration.

"I was just telling my delivery boys the other day," said one grocery merchant, "how lucky they are to have trucks to get around. When I was delivering, before the days of the truck, it was a disagreeable job, to say the least. We used to pay a dollar for a big umbrella, advertising some kind of barn paint or other, to put over the driver's seat on the wagon. It was good for anything except water, and when it rained I would get so wet that I flooded every place I went into. The horse used to get mud all over him, and it was twice the job to wash him that it is to wash a truck today."

And after a rain, when everything was nice and sloppy, the horse would take to swishing his mud-bespattered tail around, and every other swish would catch me full in the face, so that when I was through for the day, there was three things that had to be washed, the horse, the wagon, and me. And when we carried kerosene, it had to be taken along in the driver's seat, rather than have it spill on the tables on the wagon. It always "tasted" the driver, though, and he had to keep special pair of pants to use when he delivered kerosene. One day, after I went into the store and put a boy on the route, the delivery boy called me from the junction and informed me that my horse and what was left of my wagon was headed for town, breaking all speed records and minus a driver and the groceries the latter being scattered all over the junction. Today, things are

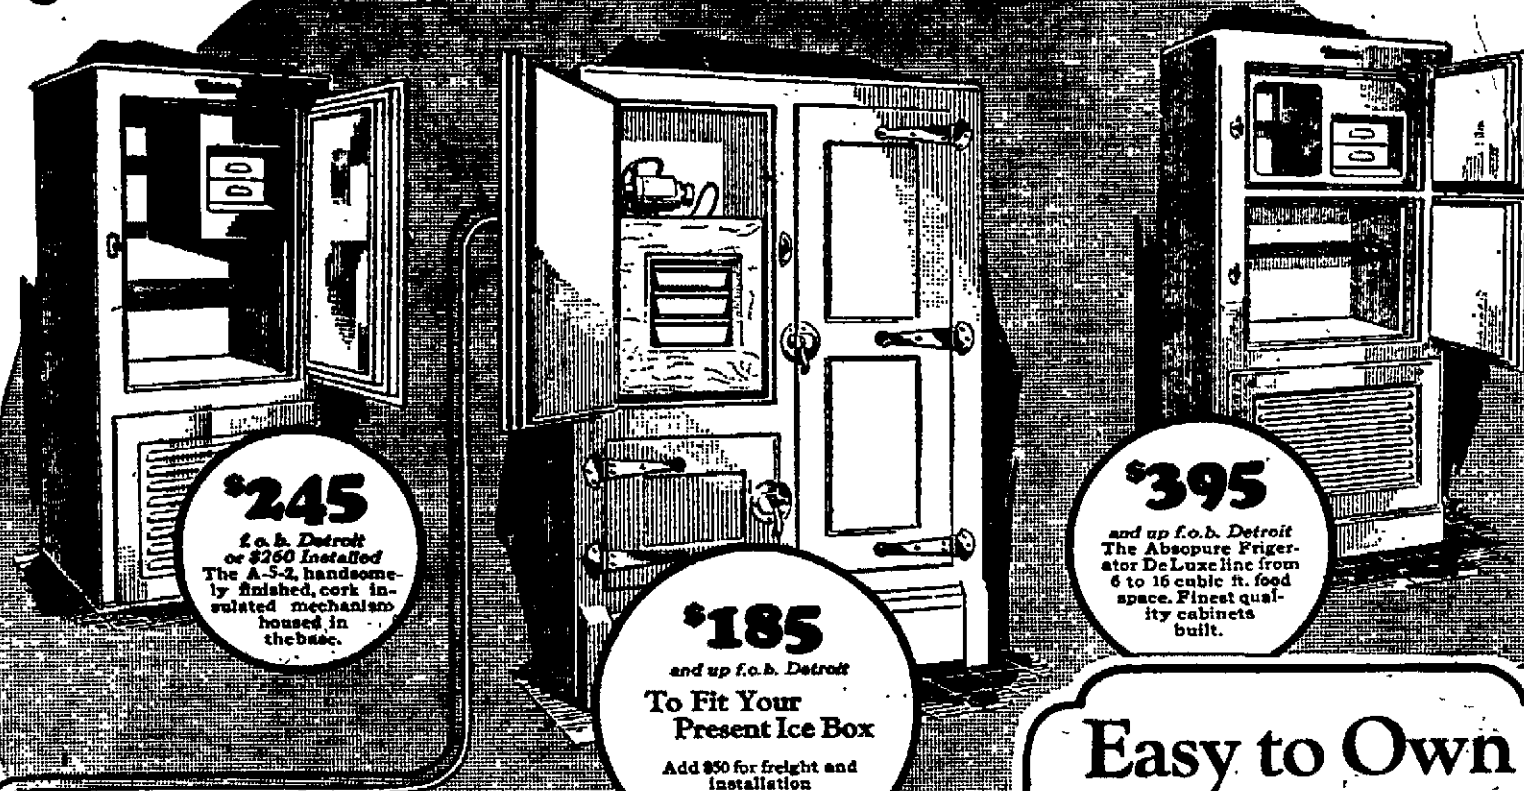

different. Delivery boys have clean trucks, that don't run away, and they can make better time, and everybody is happy!"

Economical Electric Refrigeration by Famous Refrigerating Authorities

Electric Refrigeration At Its Best

Advantages of price, quality and reliability so brilliantly conspicuous in the Absopure Refrigerator represent the practical expression of 25 years' experience by famous refrigerating authorities.

It is completely automatic, quiet running and practically free from service requirements. It is economical to buy, maintain and operate.

In materials, workmanship and quality it is not surpassed by the costliest machines built. And because of the manufacturing economy of its design and the volume methods of production, it holds outstanding price advantage in every comparison.

Come in and see it in operation and let us show how easily you can have its advantages.

Easy to Own In Price, Terms and Long, Economical Service

For a low first payment and terms to suit your convenience you can enjoy the utility and dependable service of the Absopure Refrigerator in your present ice box or in any of the beautiful cabinet models of the Absopure line. You pay almost as you would pay for ice. And you add to the equipment of your home a convenience of daily and continuous usefulness, and of good housekeeping pride. You are independent of the ice man. You have 100% effective refrigeration at all times. Food and health are protected. A plentiful supply of ice cubes always ready. And scores of dainty desserts and salads, chilled or frozen are at your quick command with the Absopure Refrigerator.
